

LP PULMONAR

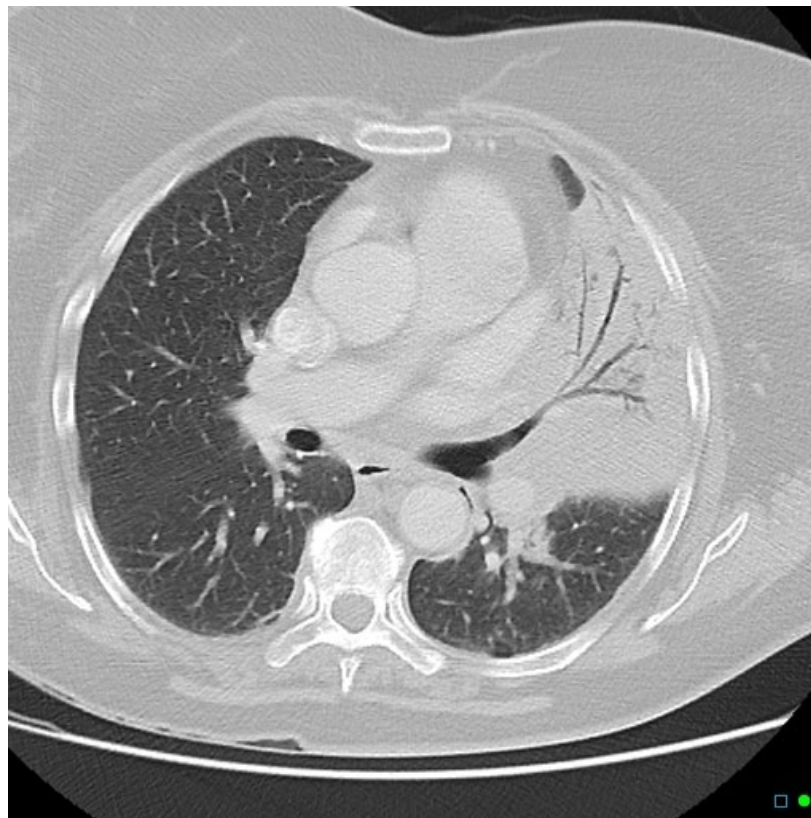

Pneumonie pneumococica, faza de congestie, aspect RX

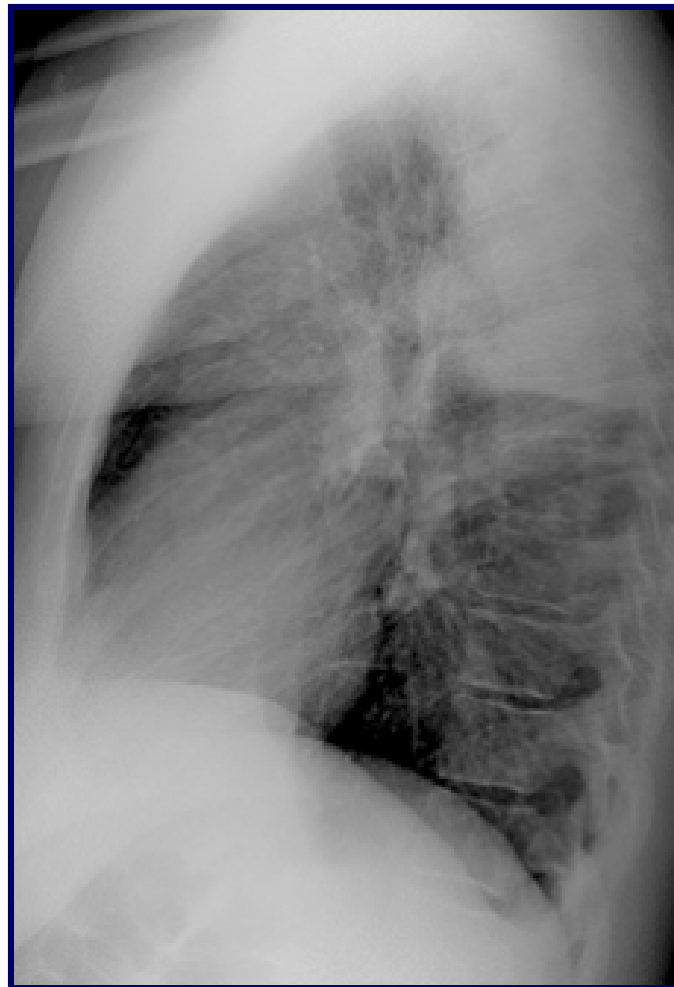

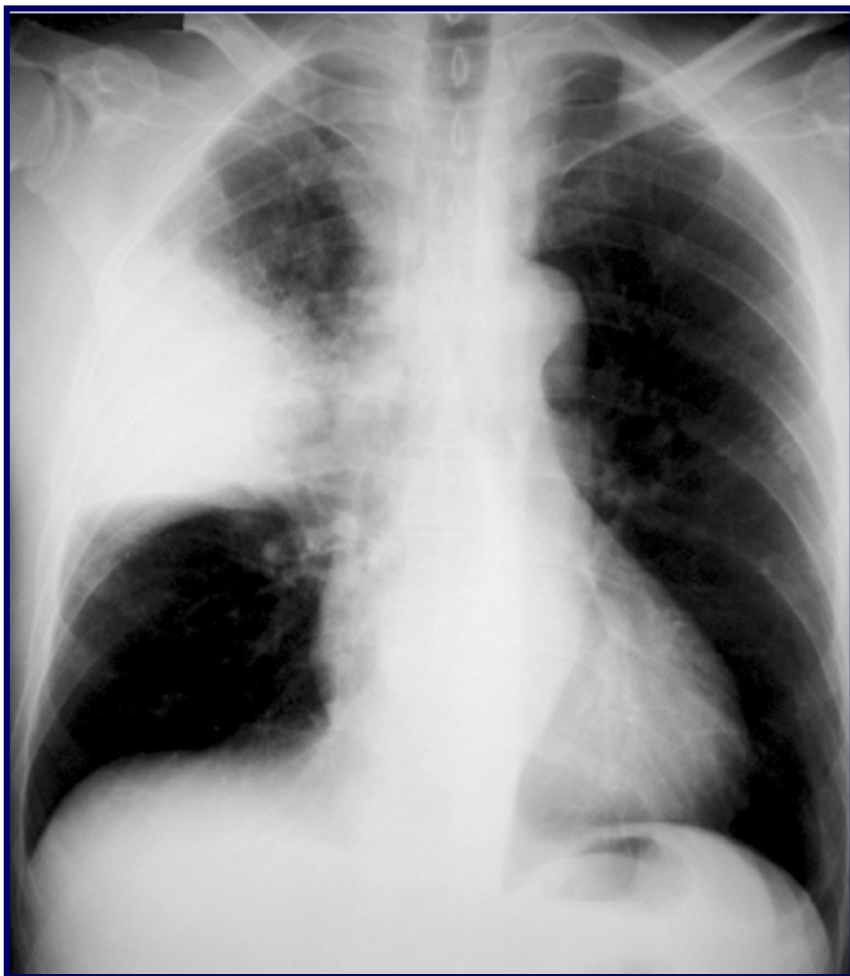

Pneumonie pneumococica, faza de hepatizatie rosie, bronhograma aerica, aspect RX

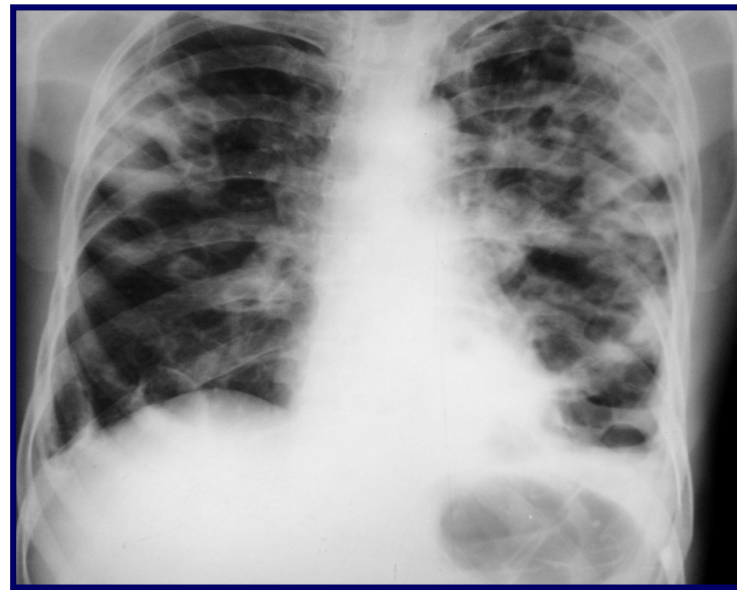

Pneumonie pneumococica, faza de hepatizatie rosie, bronhograma aerica, aspect CT, fereastra pulmonara

Pneumonie pneumococica, faza de hepatizatie cenusie, aspect RX

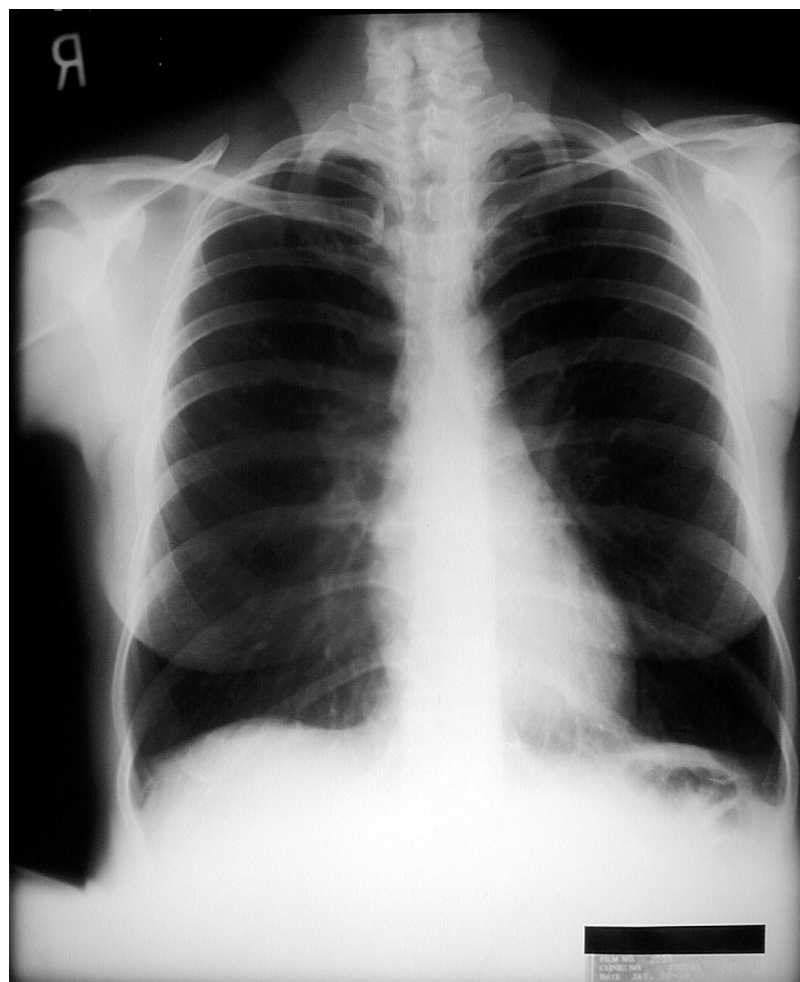

Bronhopneumonie stafilococica, aspect RX in evolutie

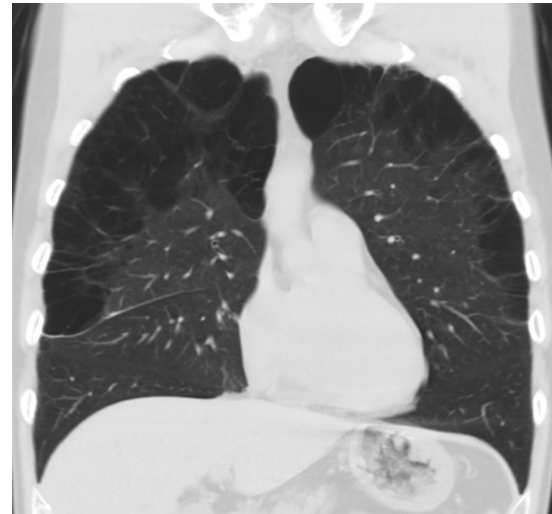

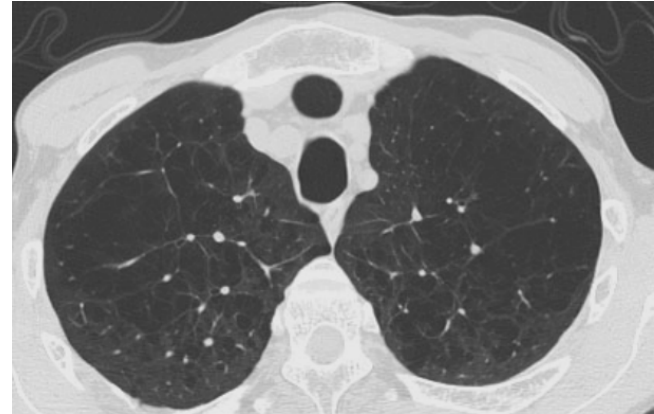

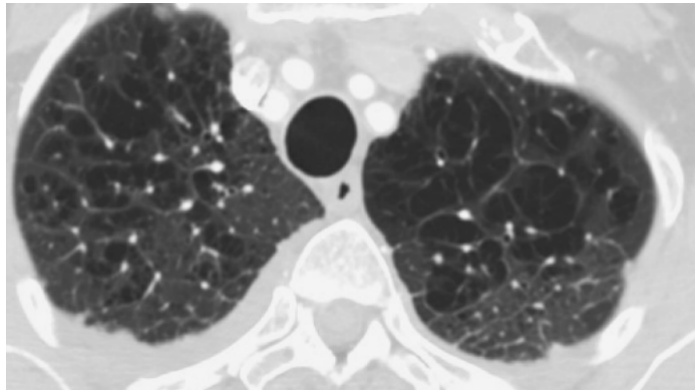

COVID-19, aspect CT fereastră pulmonara, leziuni cu aspect de geam mat pulmonar bilateral, mai accentuat posterior dreapta

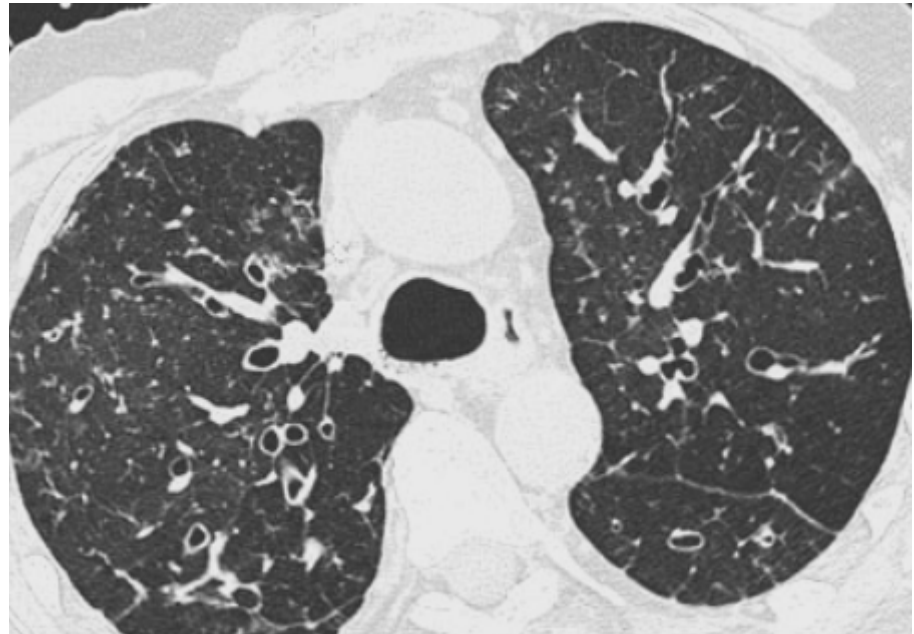

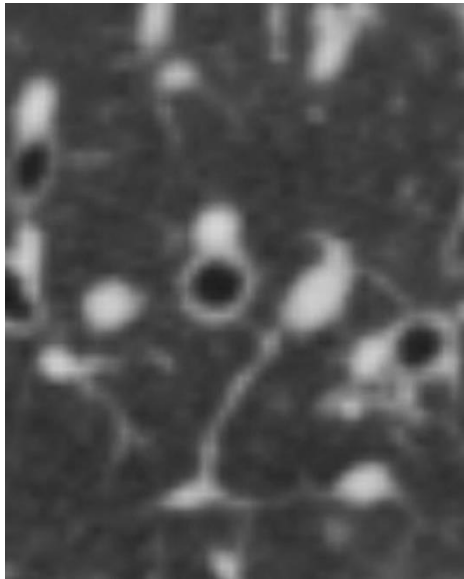

Emfizem pulmonar, aspect RX

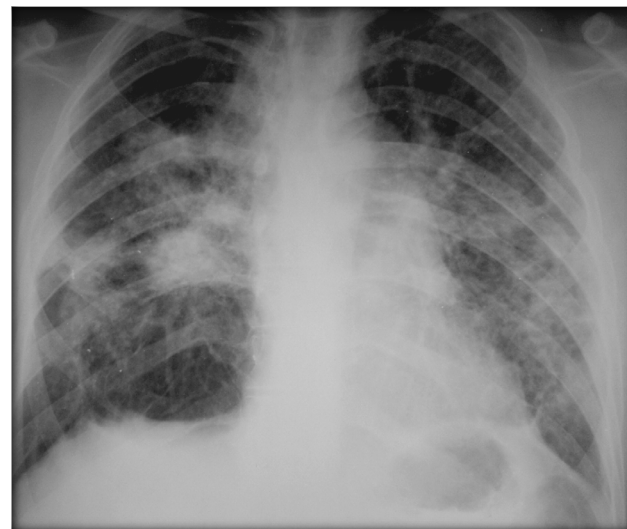

Emfizem pulmonar, aspect CT

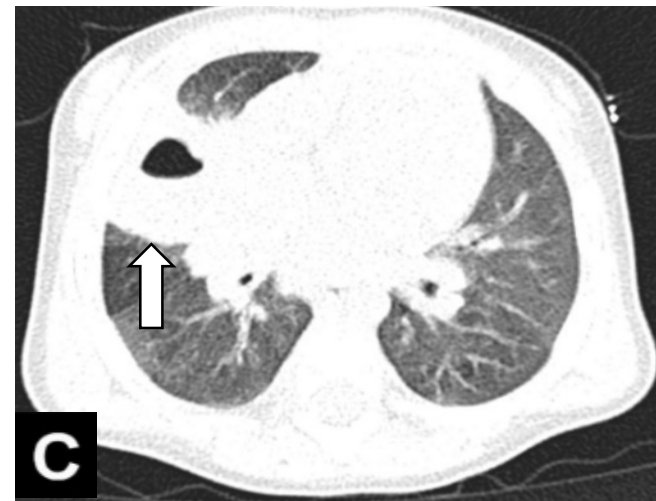

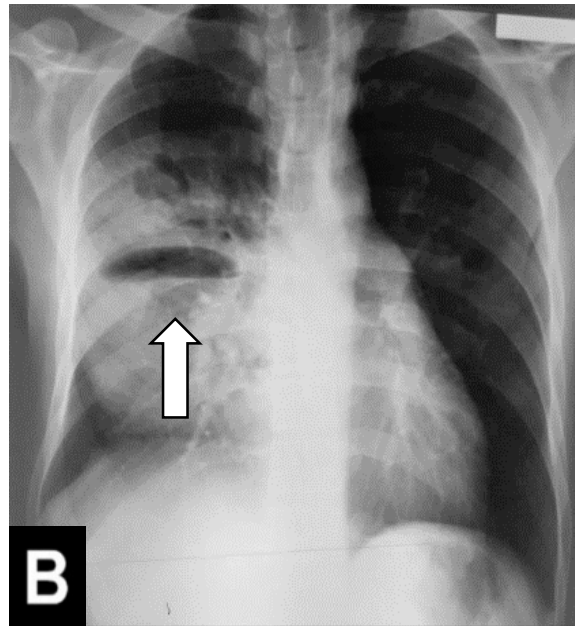

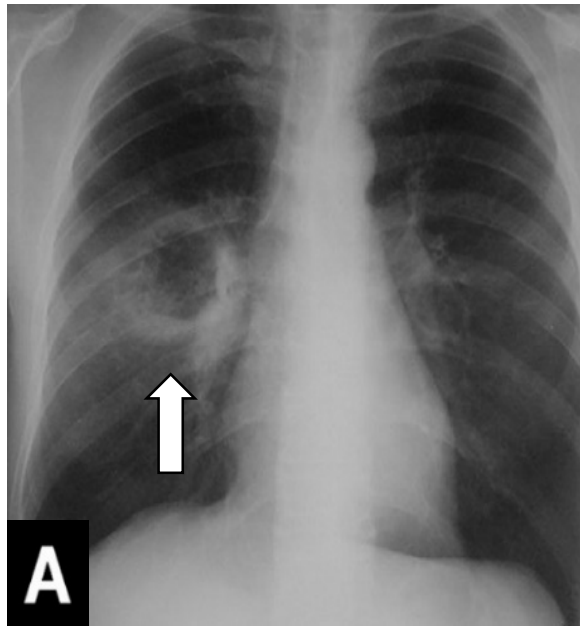

Bronsiectazii, aspect CT

Silicoza pulmonara, aspect RX: stadiul I, II si III

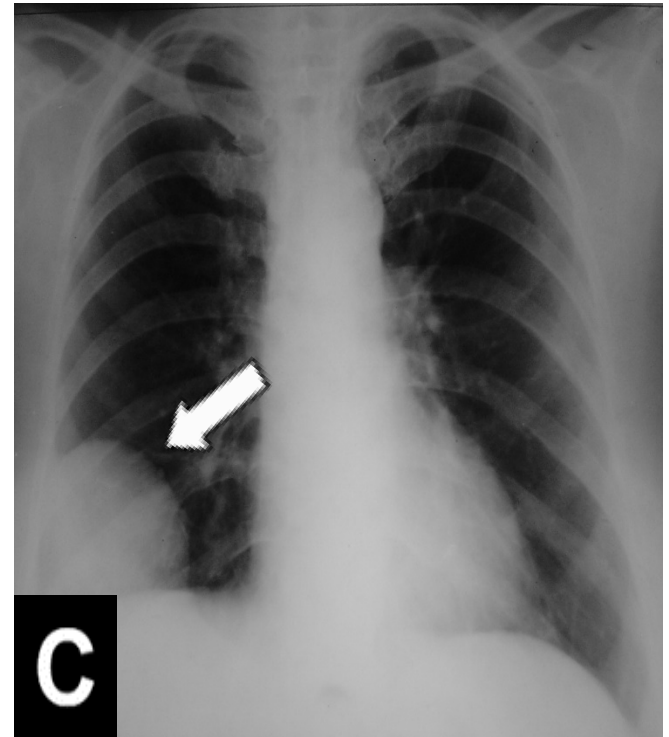

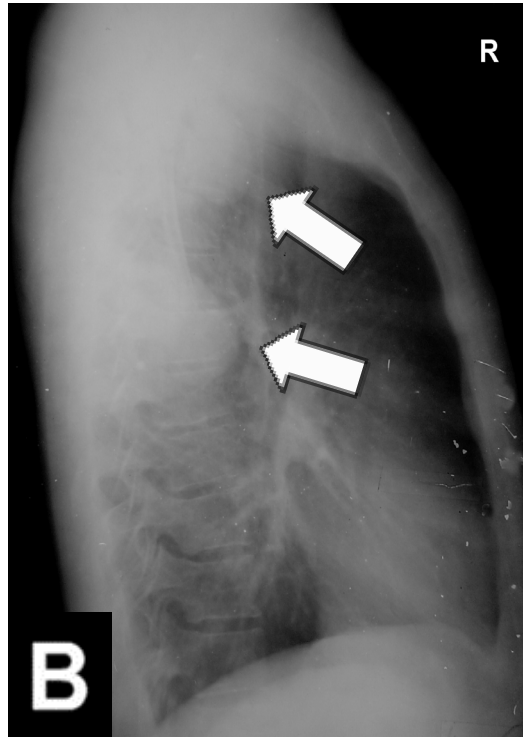

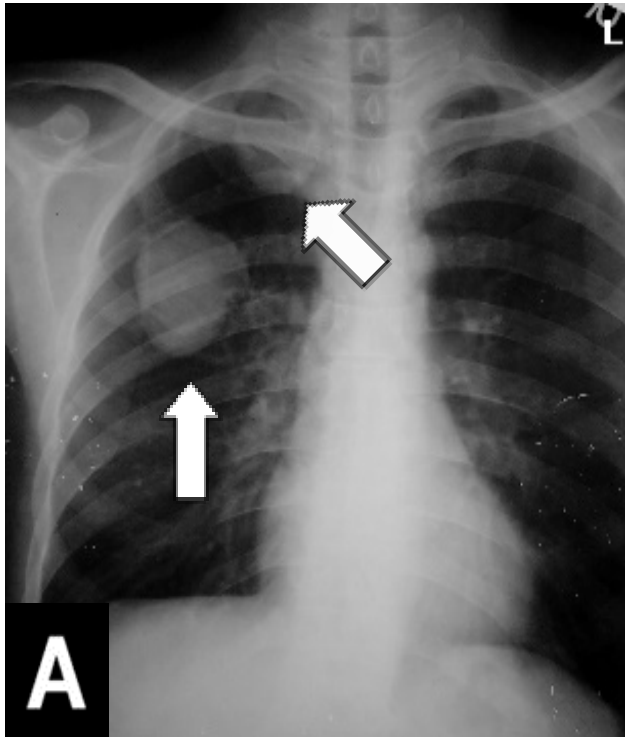

Abces pulmonar cu nivel hidro-aeric: A, B. aspect RX; C. aspect CT, fereastra pulmonara

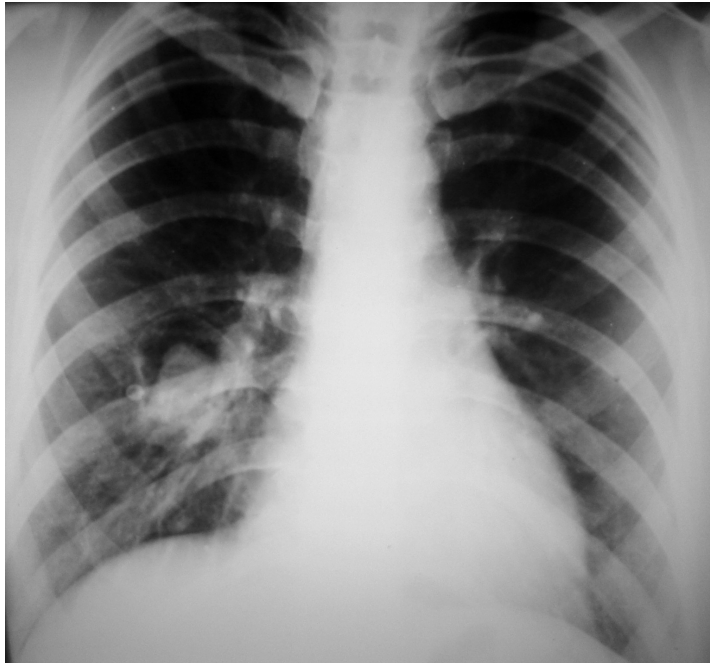

Abces pulmonar, aspect RX fata si profil

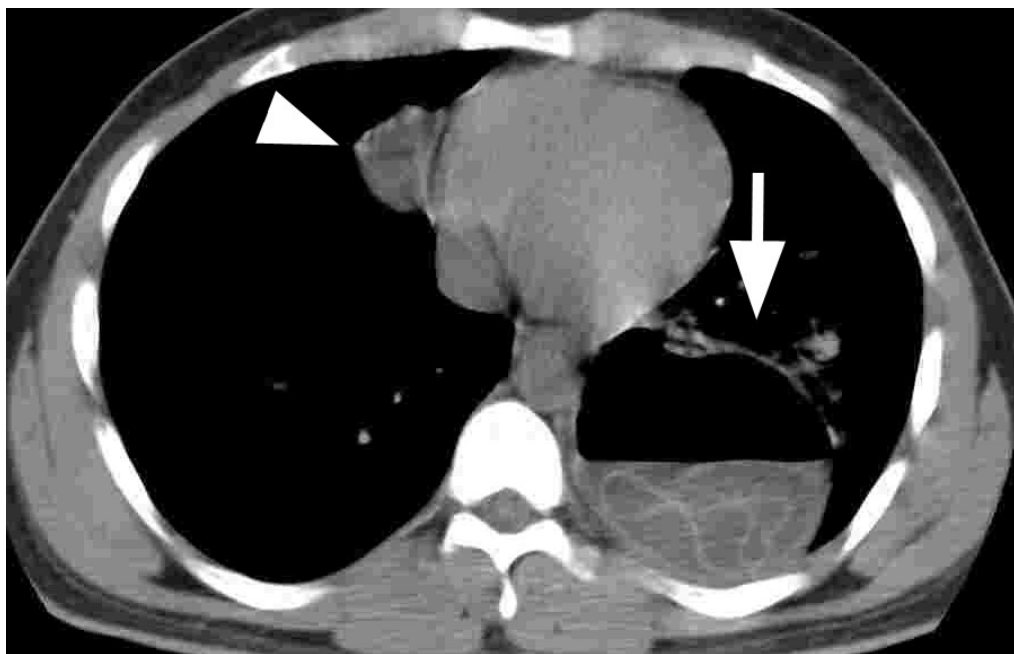

Chist hidatic inchis, aspect RX

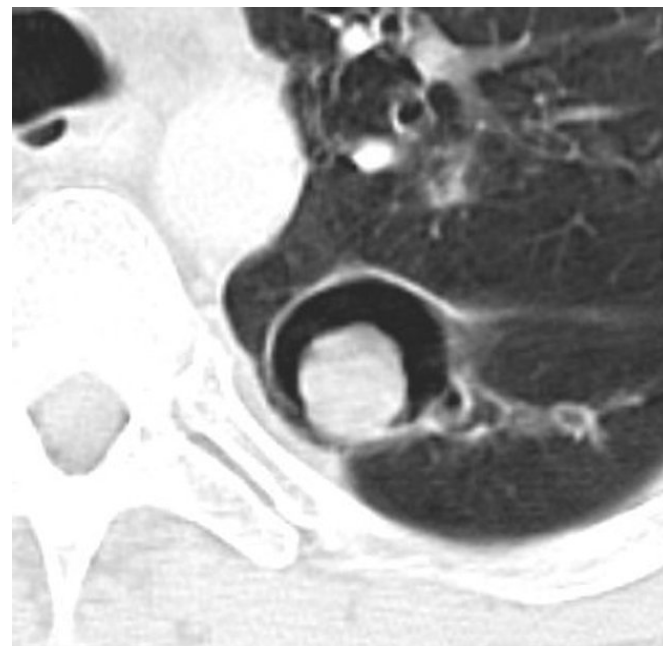

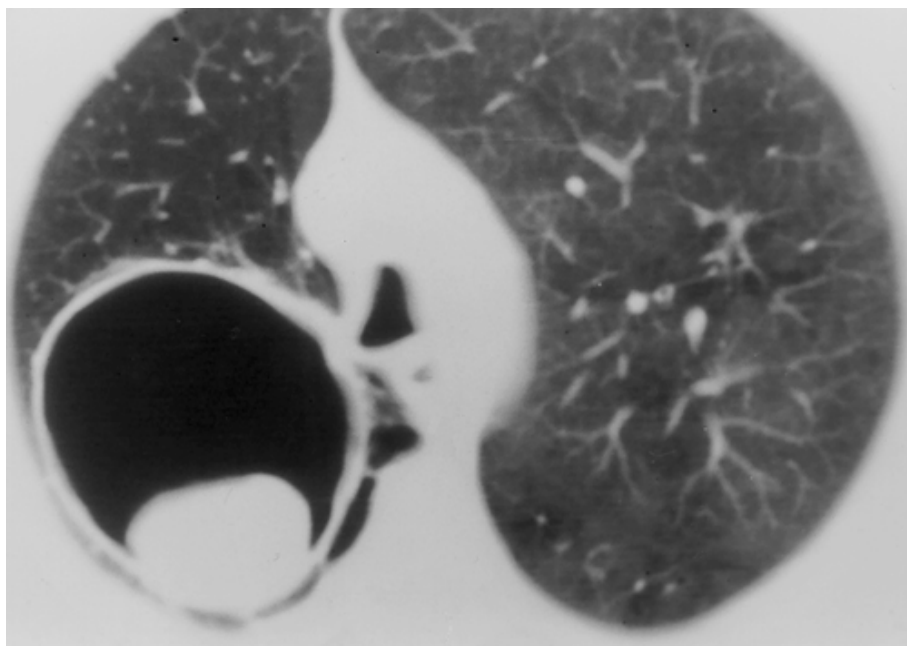

Chist hidatic deschis, aspect RX

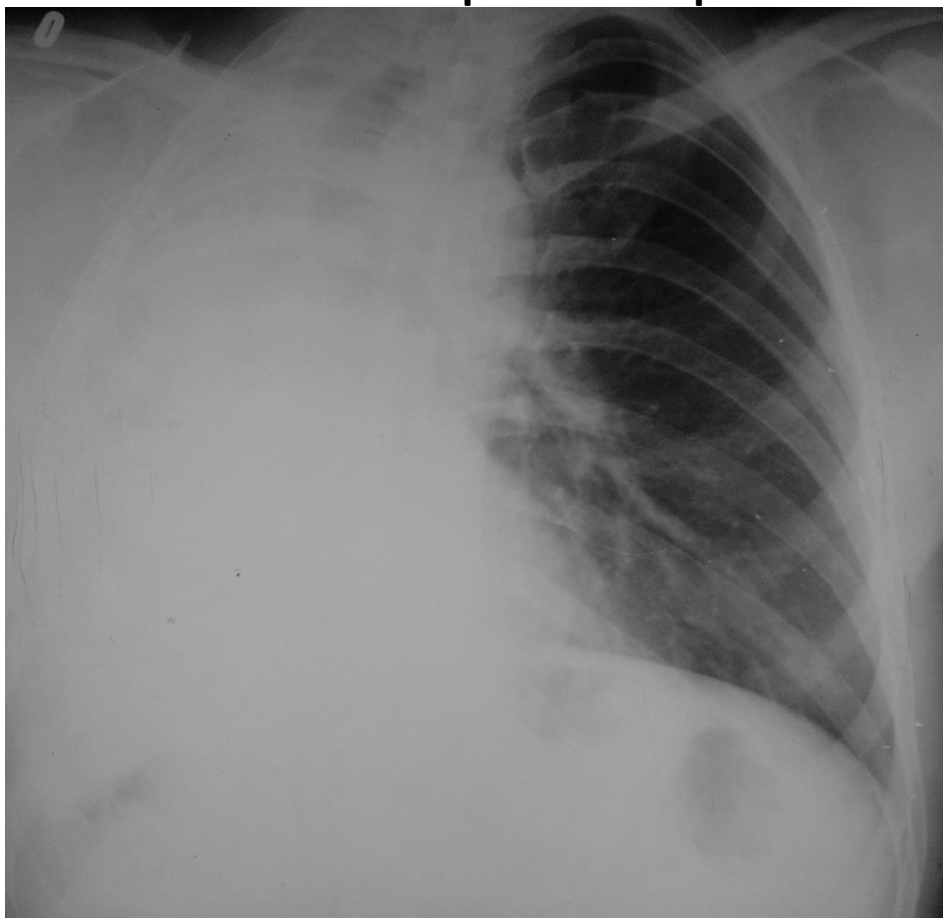

**Chist hidatic inchis (pulmonar stanga) si deschis (pulmonar dreapta), aspect CT,
fereastra de mediastin**

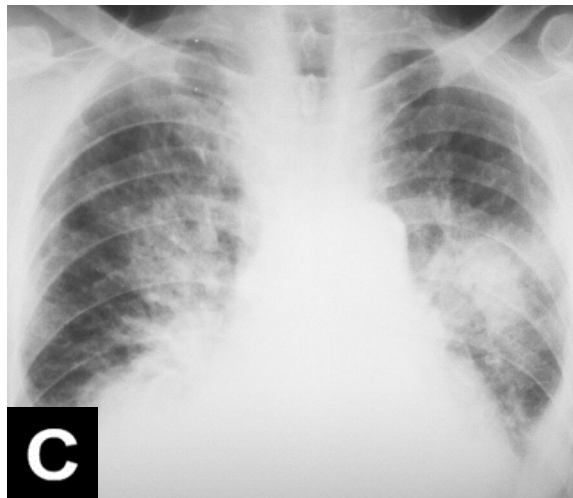

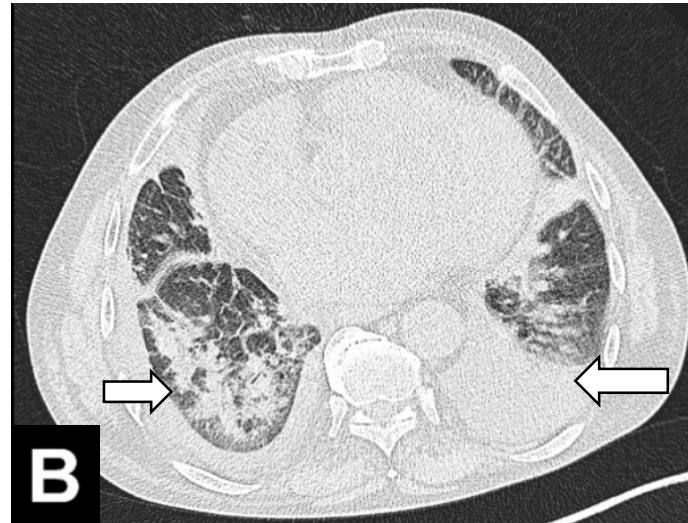

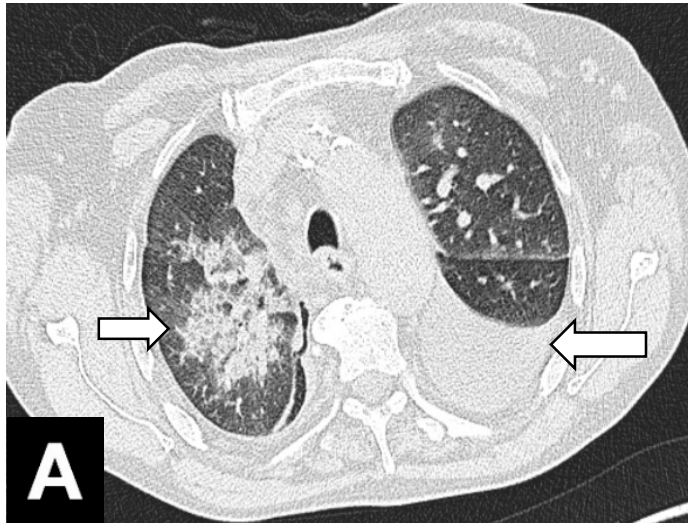

Aspergiloza pulmonara, aspect CT, fereastra pulmonara

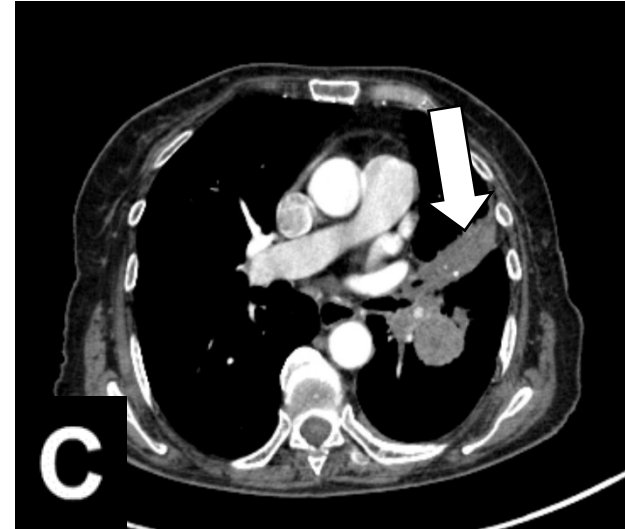

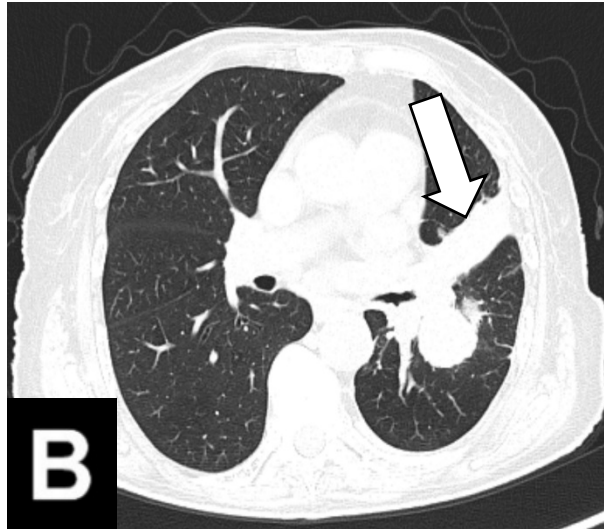

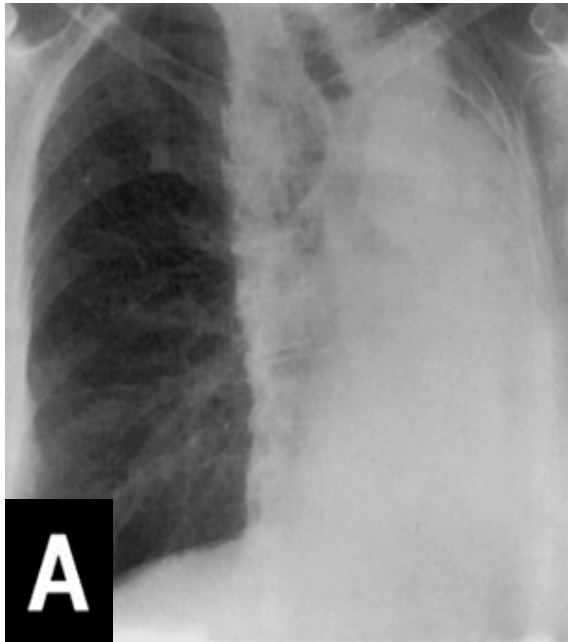

**Atelectazie pulmonara dreapta, aspect RX, tractionarea
traheei de partea dreapta**

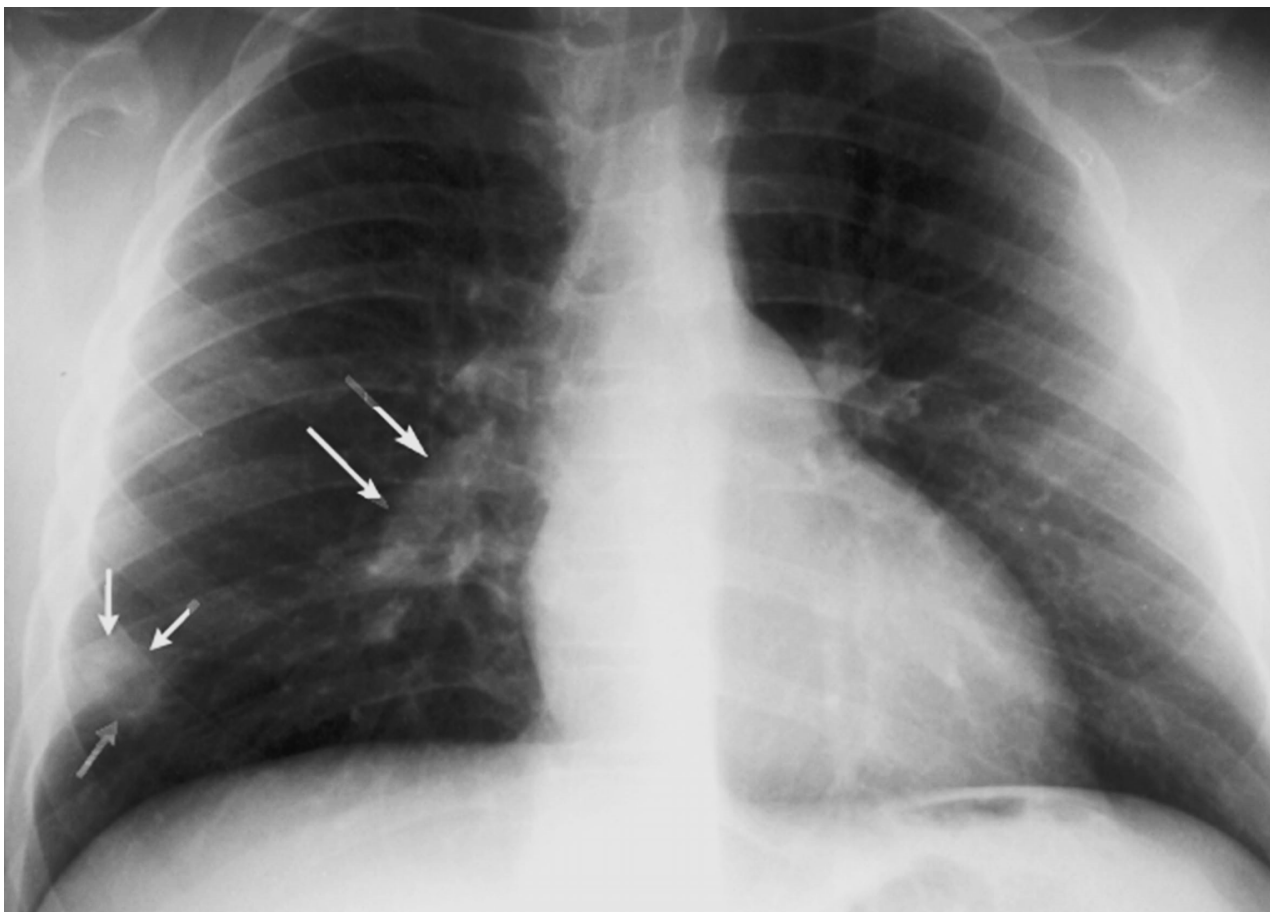

Edem pulmonar acut: A, B. aspect CT fereastra pulmonara, C. Aspect RX

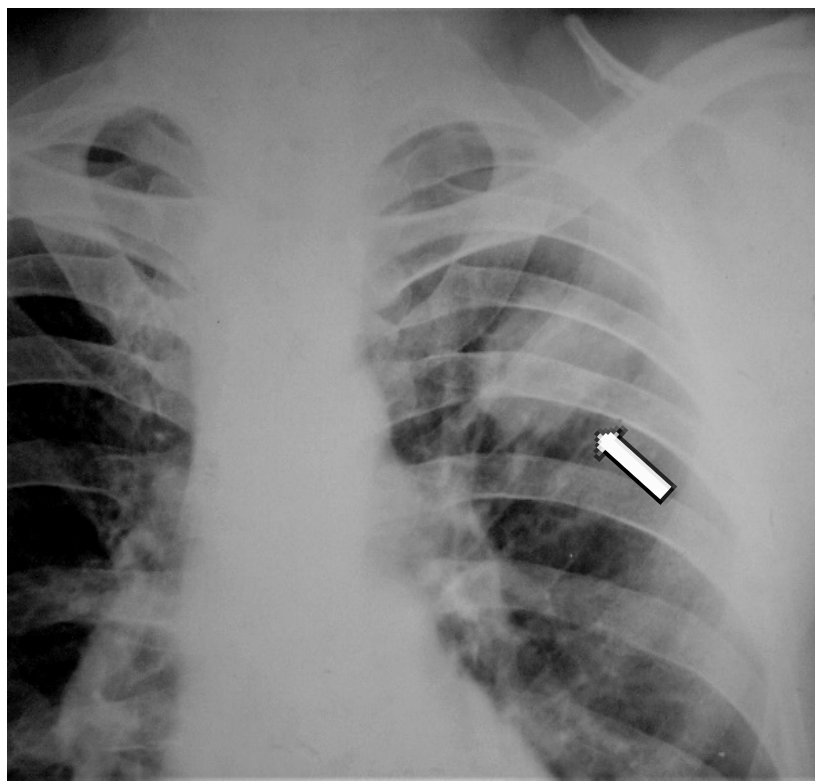

Atelectazie stanga, aspect RX (A) si CT fereastra pulmonara (B) si mediastinala (C)

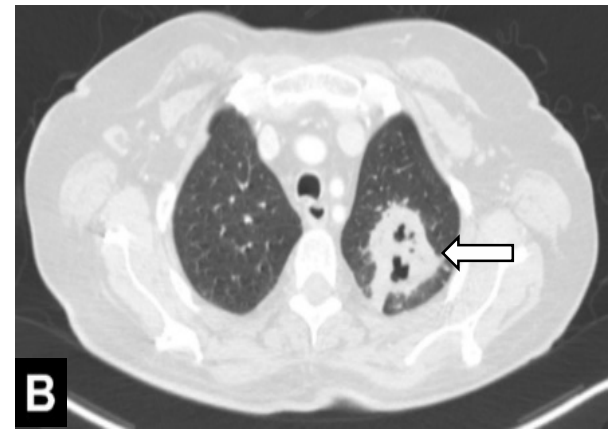

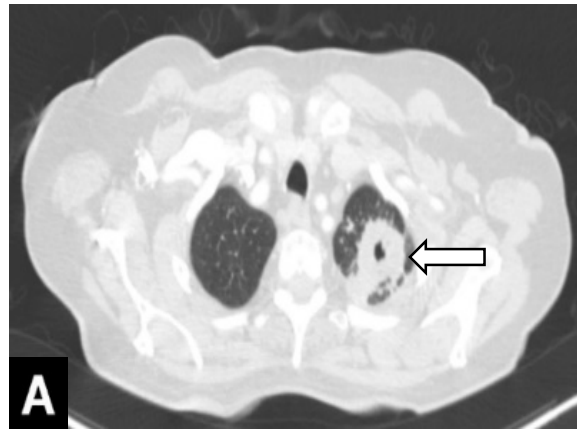

Tuberculoza primara, aspect RX, complexul primar Ranke, afectul primar, limfangita, adenopatia hilara

**Tuberculoza secundara, aspect RX, infiltrat Assman (reactivarea
nodulilor postprimari)**

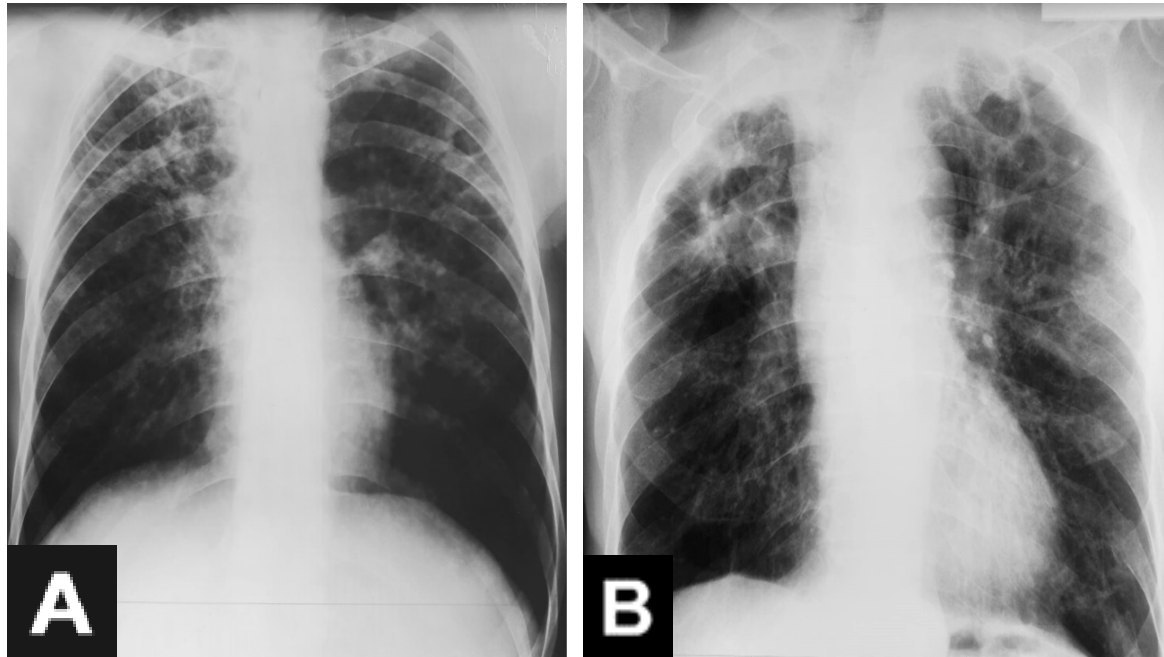

Tuberculoza secundara, caverna gradul I, aspect RX si CT (“ros de molii”)

Tuberculoza secundara, caverna gradul II, aspect RX si CT

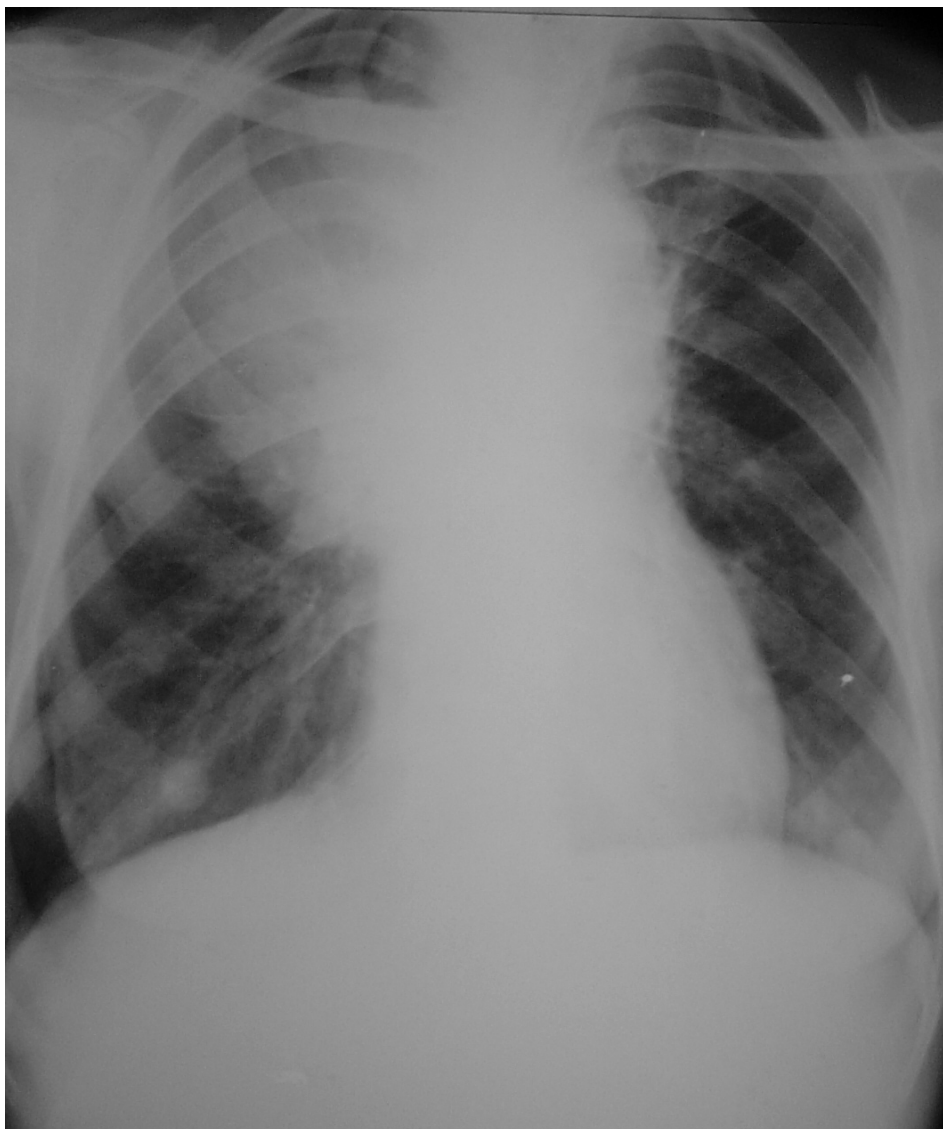

Tuberculoza secundara, caverna gradul III, aspect RX

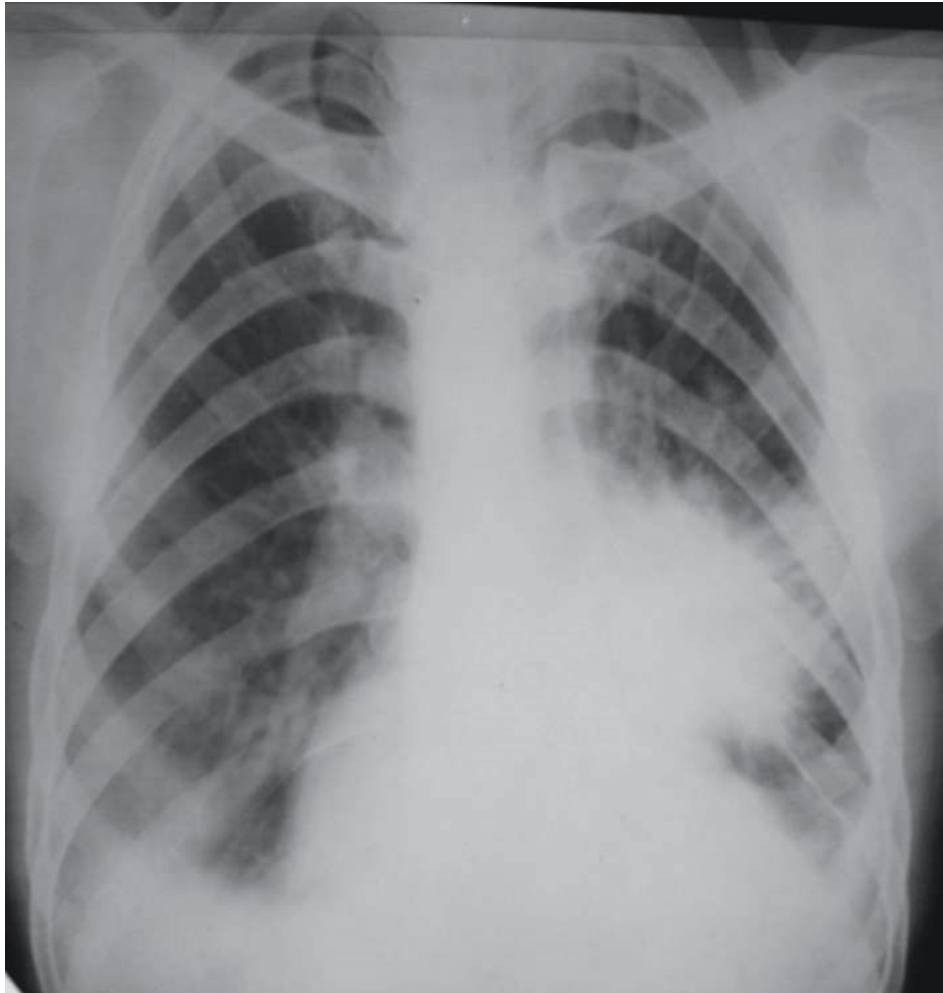

Cancer bronhopulmonar parahilar drept, aspect RX fata si profil

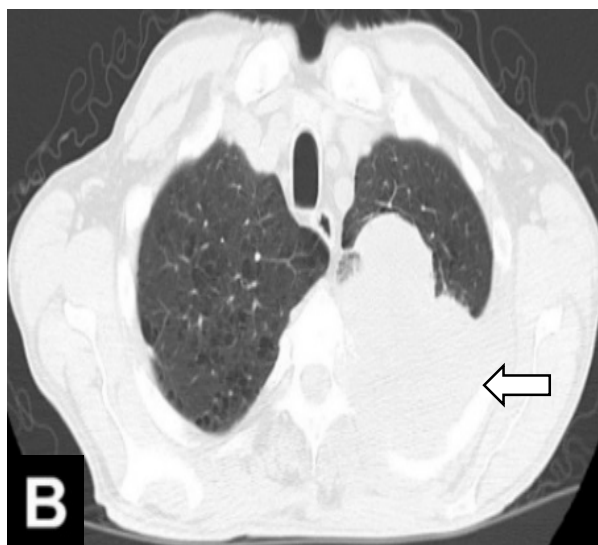

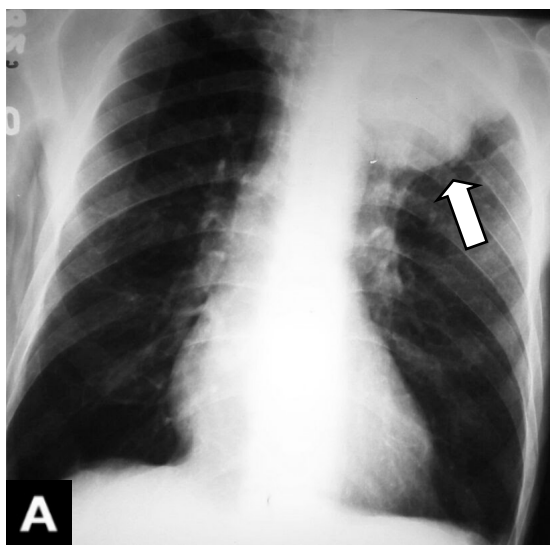

Cancer bronhopulmonar subclavicular si parahilar drept, aspect RX

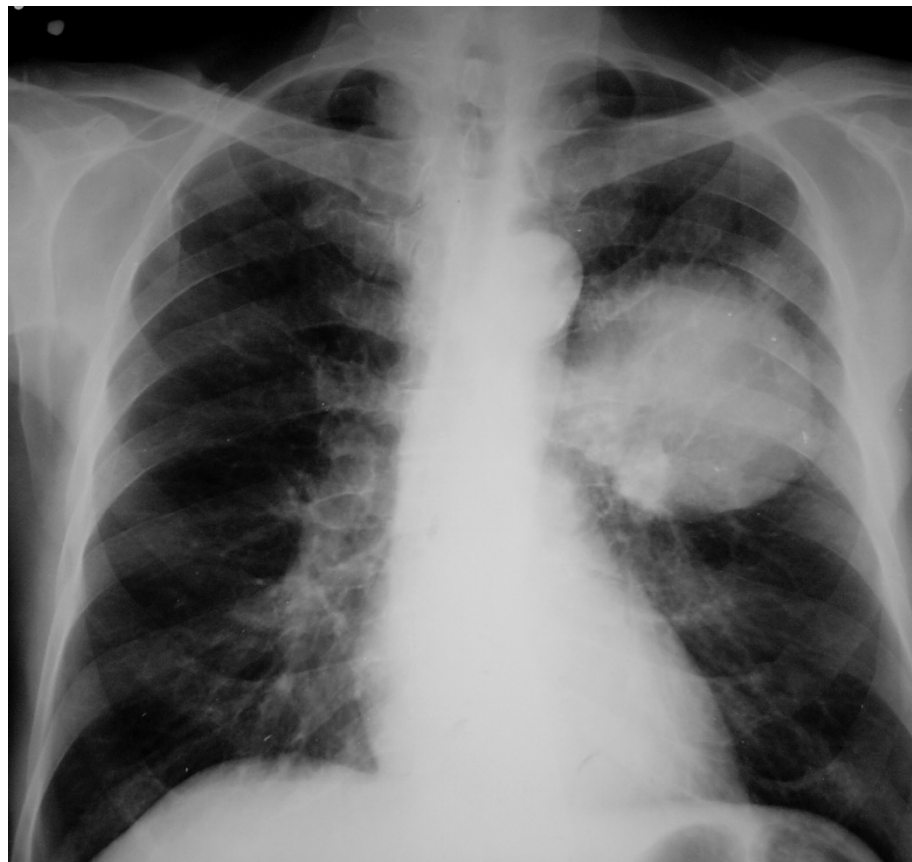

Cancer bronhopulmonar parahilar stang, aspect RX

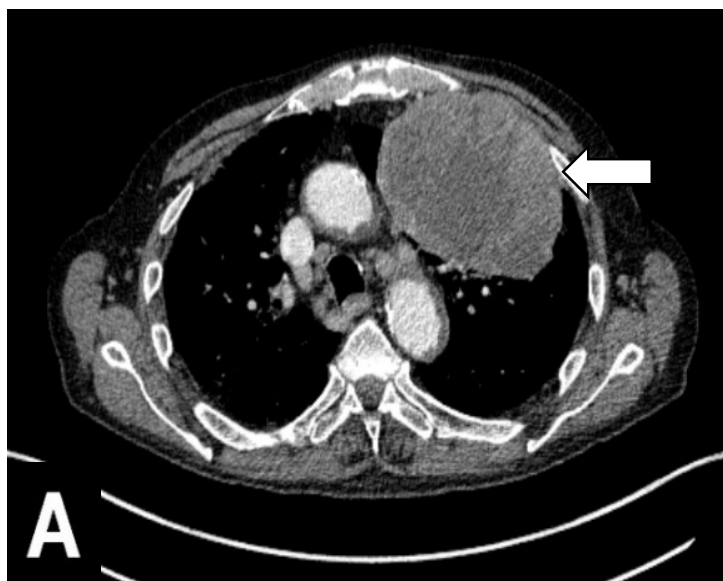

Cancer bronhopulmonar apical stang, Pancoast-Tobias, aspect RX si CT (osteoliza coastelor, corpului vertebral si extensie in interiorul canalului medular)

**Sarcom pulmonar stang in evolutie, aspect RX, depasirea capsulei in
imaginea din dreapta**

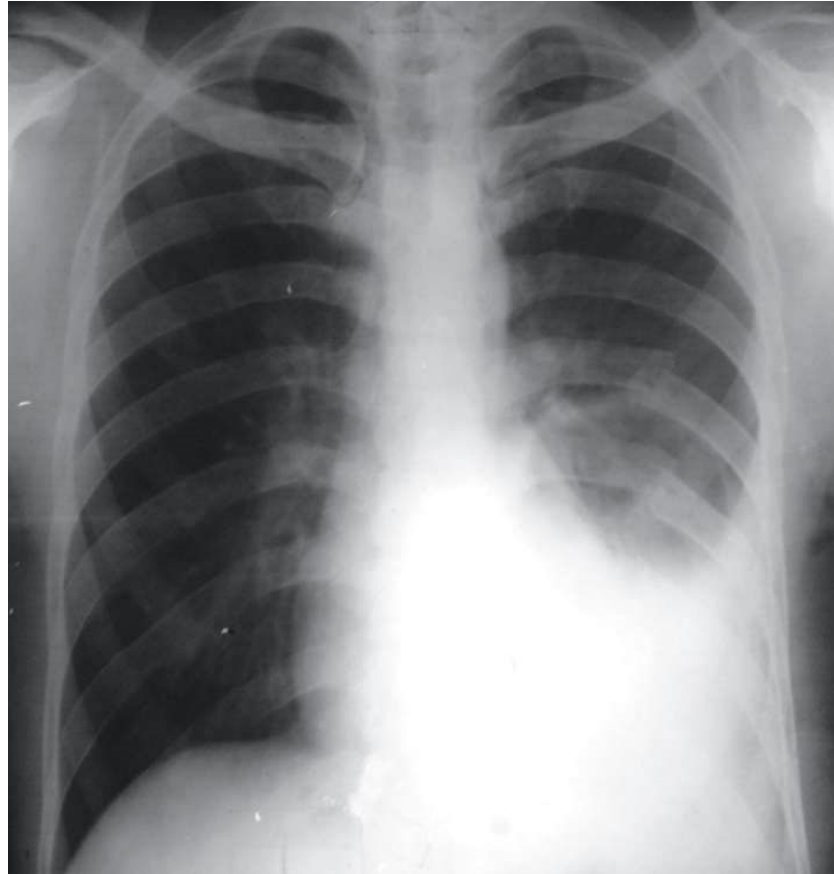

Sarcom pulmonar stang, aspect CT postcontrast intravenos, fereastra de mediastin

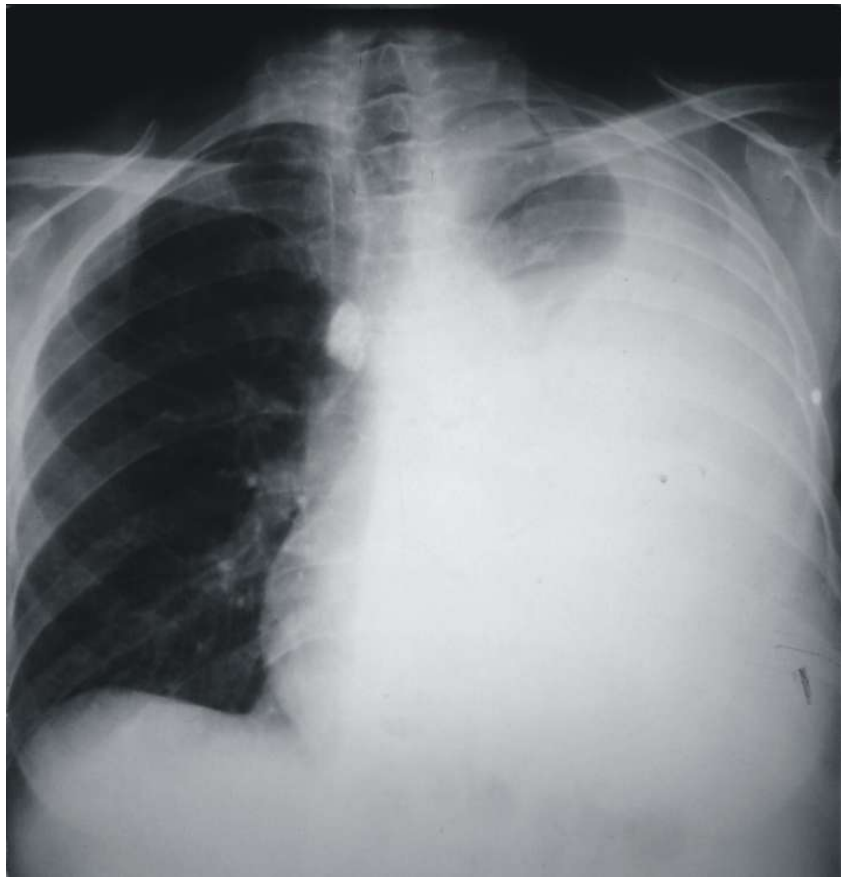

Fibrotorax stang, aspect RX, tractionarea traheei de aceeași parte, se vizualizează minim parenchim pulmonar funcțional

Fracturi costale + lichid pleural stang = hemotorax stang, aspect RX

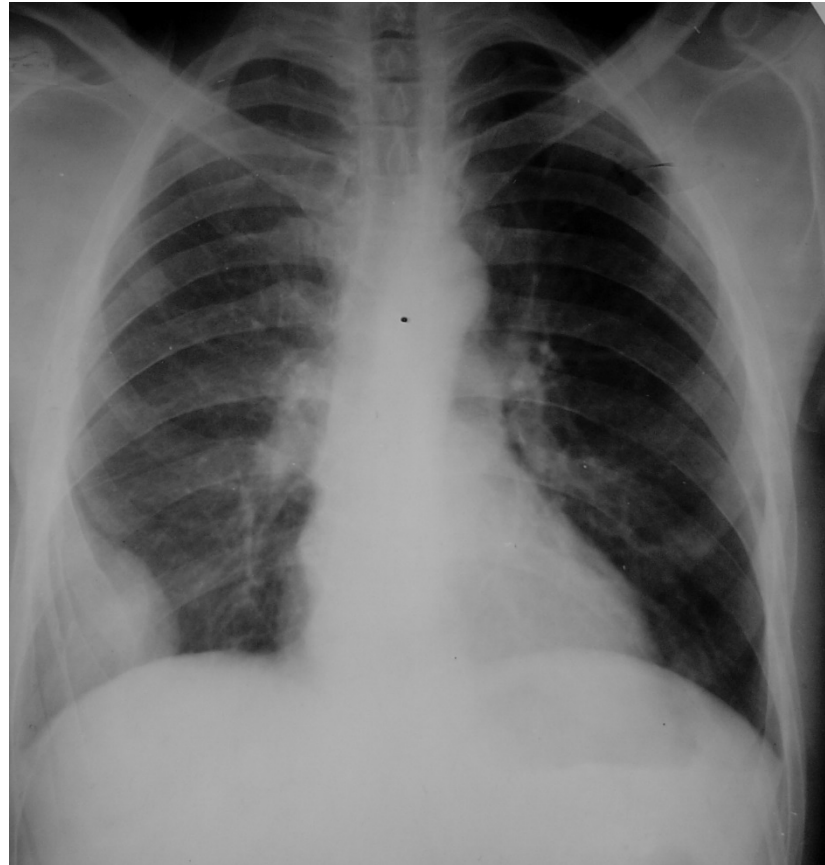

**Pleurezie, aspect RX, efect de masa asupra traheei, impinsa
de partea opusa**

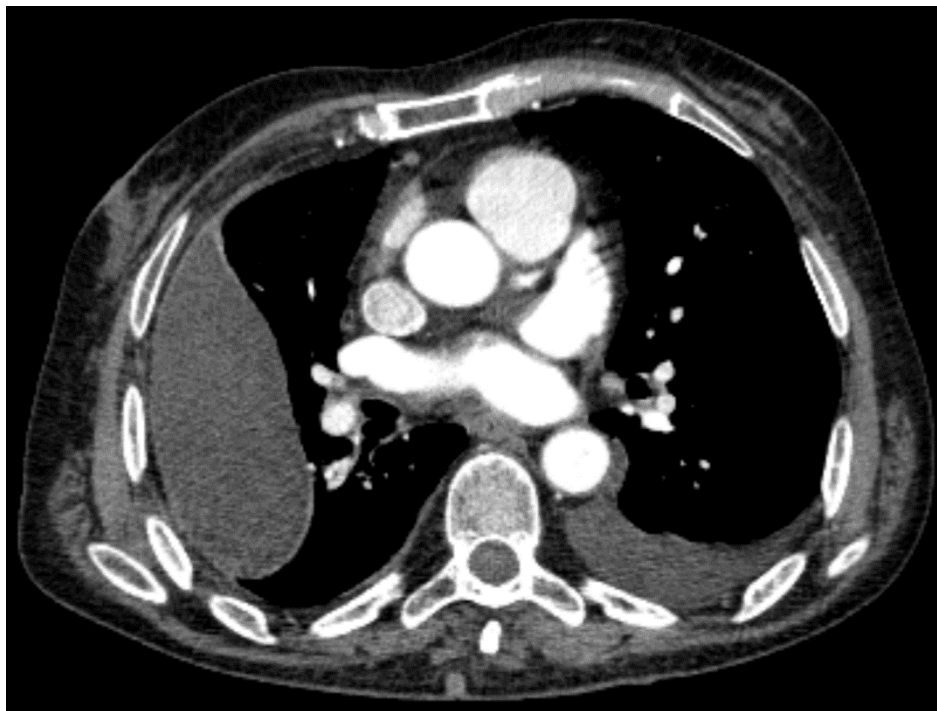

**Pleurezie stanga, aspect CT,
fereastra de mediastin**

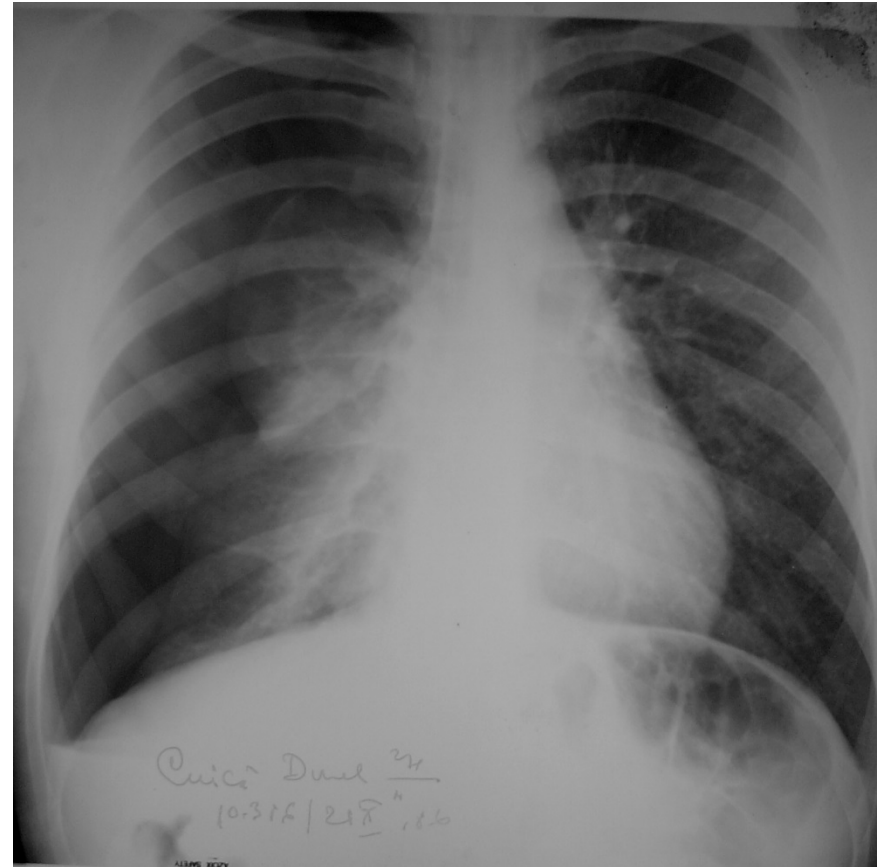

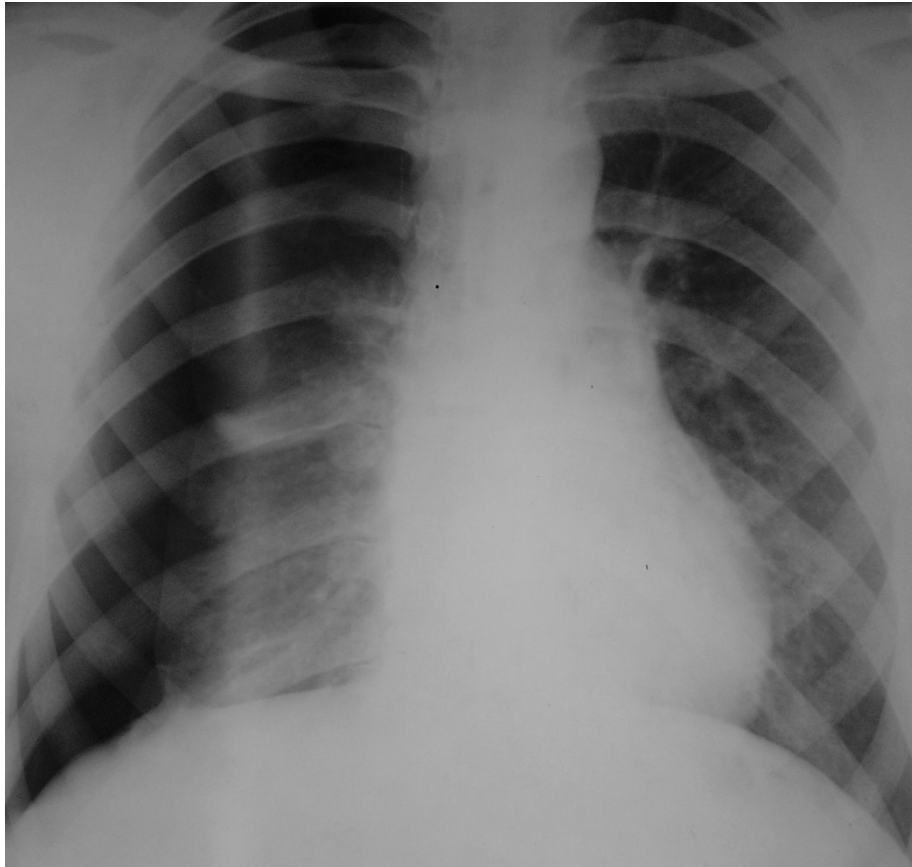

Fluid cloazonat pleural dreapta, aspect RX

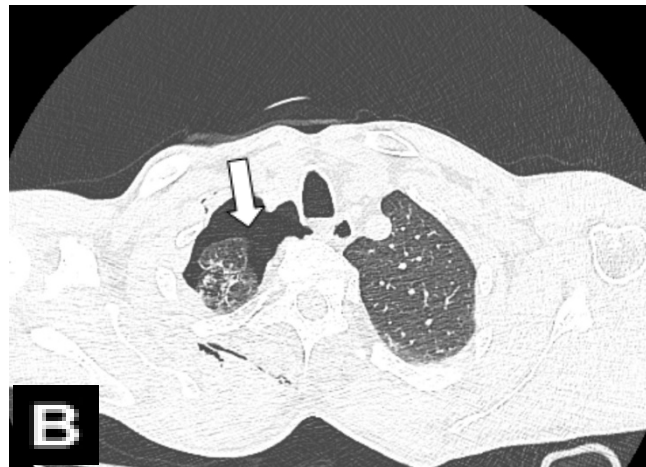

**Pleurezie stanga si fluid pleural cloazonat dreapta,
aspect CT, fereastra de mediastin**

Pneumotorax drept, aspect RX, parenchim pulmonar colabat, lipsa vizualizarii vascularizatiei pulmonare in periferie

Fracturi costale + pneumotorax drept, aspect CT: A. fereastra de mediastin; B, C. fereastra pulmonara.

**Tumora maligna pleurala dreapta (mezoteliom), osteoliza la
nivelul coastelor, aspect RX**
