

LP MUSCULOSCHELETAL

Aspect CT, fereastra osoasa, hiperostoza frontala bilateral

Aspect CT, fereastra osoasa, oedostoza

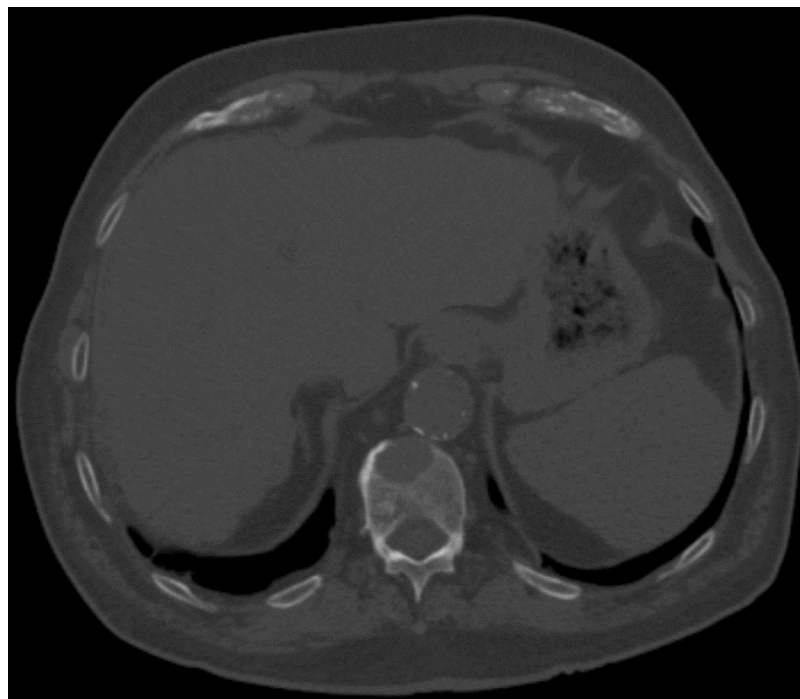

Scanograma CT, scoliozoza tibie + fibula stanga

Aspect CT, fereastra de os, osteoporoza difuza la nivelul sternului si coloanei vertebrale + modificari degenerative

Aspect CT, fereastra de os, zona de osteoliza la nivelul corpului vertebral

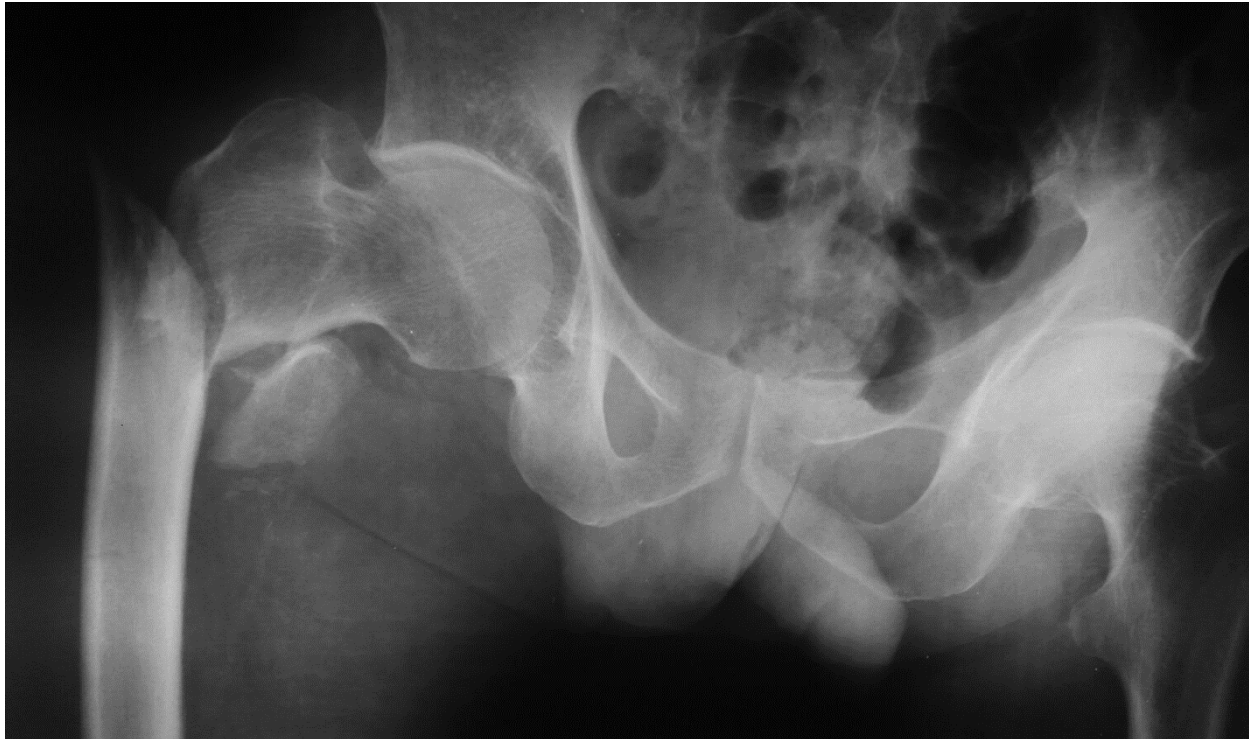

Aspect RX, osteoscleroza la nivelul oaselor bazinului si femurului

Fractura patelara, aspect RX, profil + fata

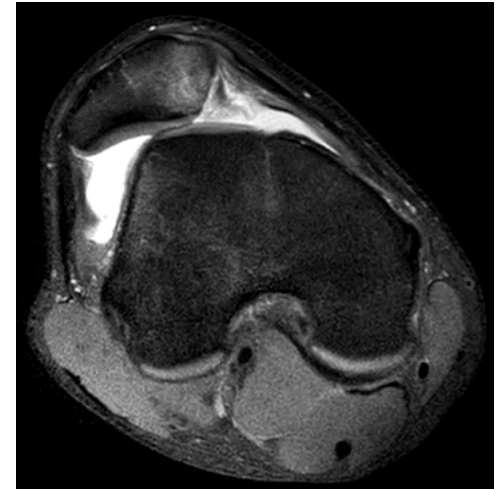

Aspect RX, fractura col femoral drept

Aspect RX, fractura cominutiva ulnara, cu deplasare, fata si profil

Luxatie la nivelul umarului (RX), la nivelul cotului (RX) si la nivelul genunchiului (RM)

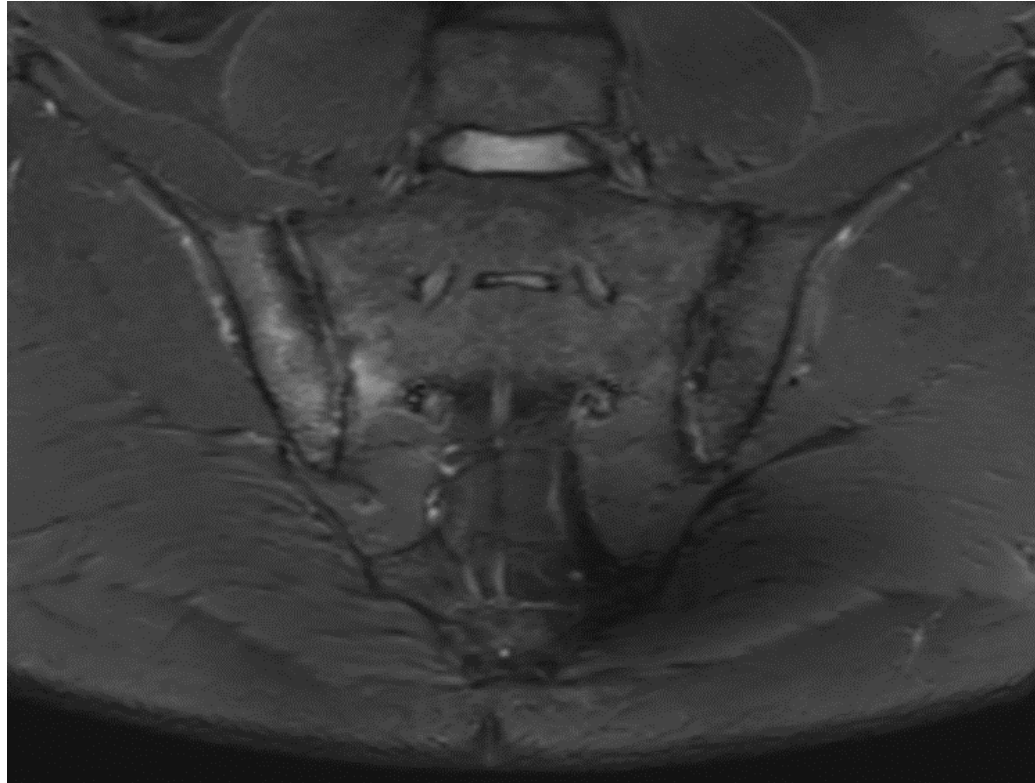

Aspect RX de osteomielita acuta, periostoză liniară/lamelară + sechestrul osos

Deviatie ulnara a degetelor, aspect RX intalnit in poliartrita reumatoida

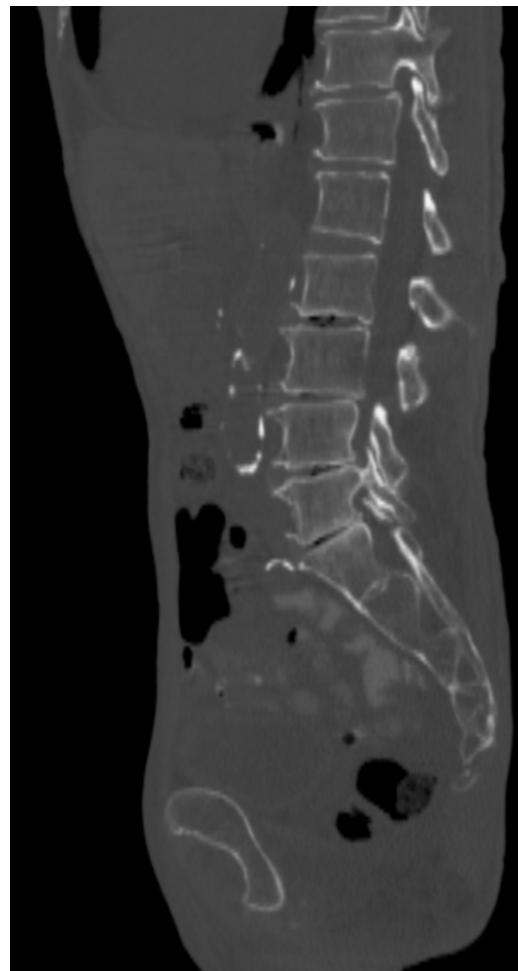

**Sacroileita, aspect RM, edem la nivelul articulatiei sacroiliace drepte, faza incipienta
in spondilita anchilozanta**

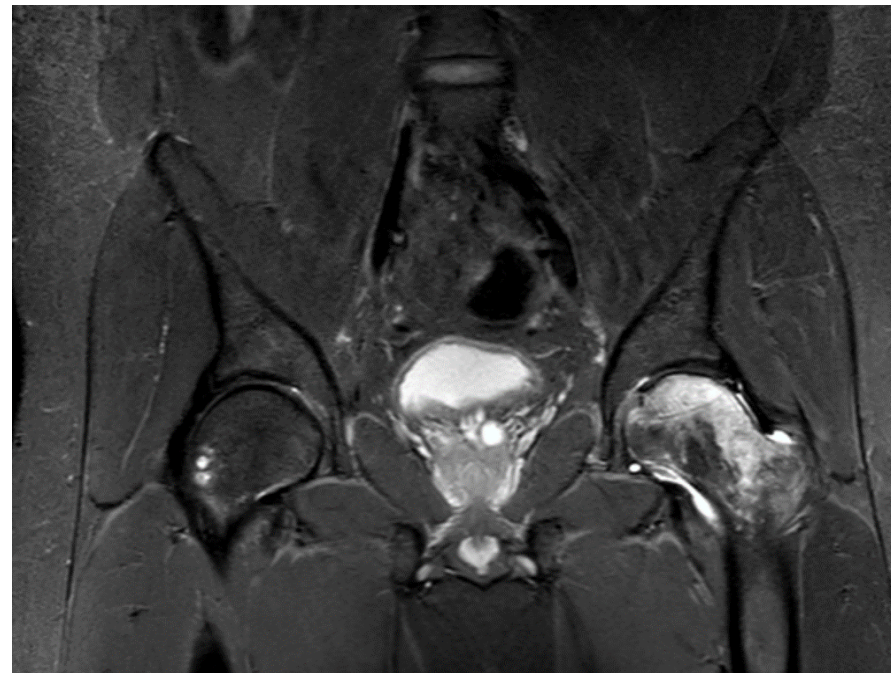

STIR

Modificari degenerative avansate coloana vertebrala, osteofite, aspect RX + CT

Coxartroza aspect RX si RM

SPAIR

Gonartroza, aspect RX

**Aspect RM de ruptura de menisc (stanga – ruptura orizontala de corn posterior;
dreapta – ruptura longitudinalala de corn posterior)**

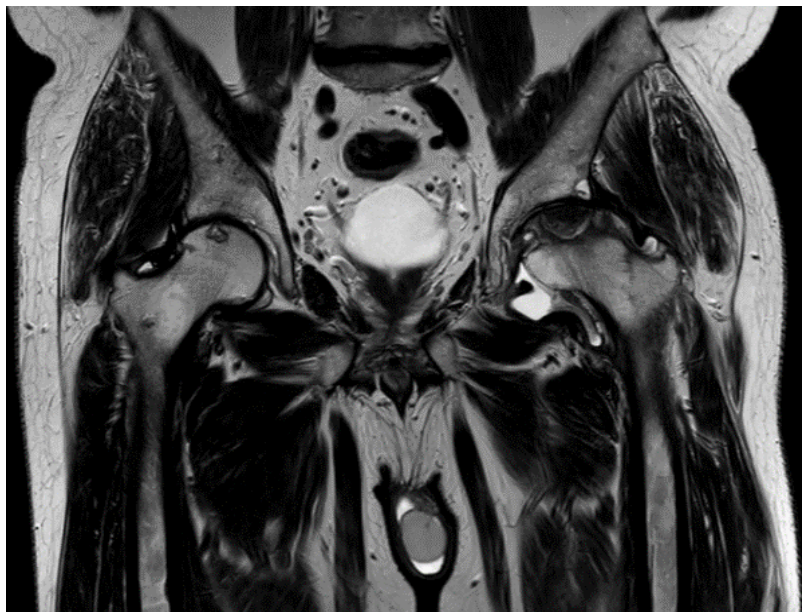

SPAIR

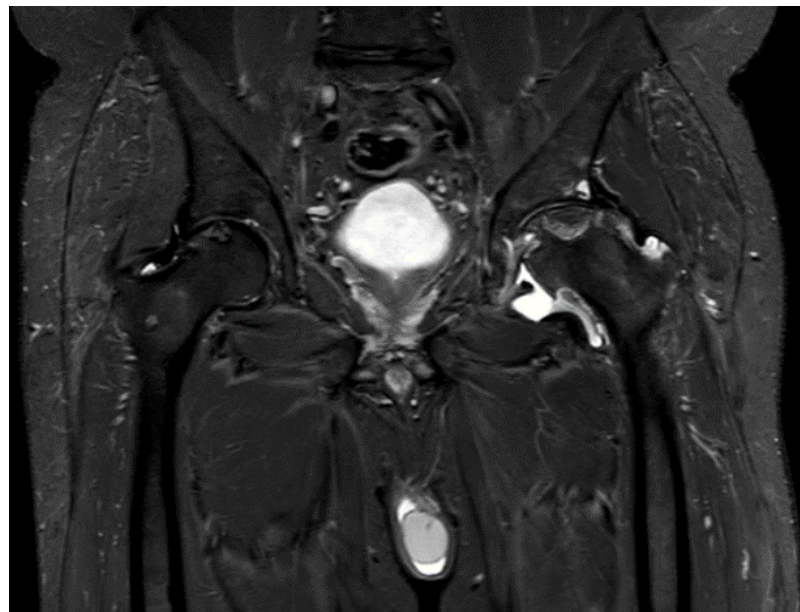

SPAIR

Osteonecroza aseptica de cap femural stang, stadiul III, aspect RM

T2

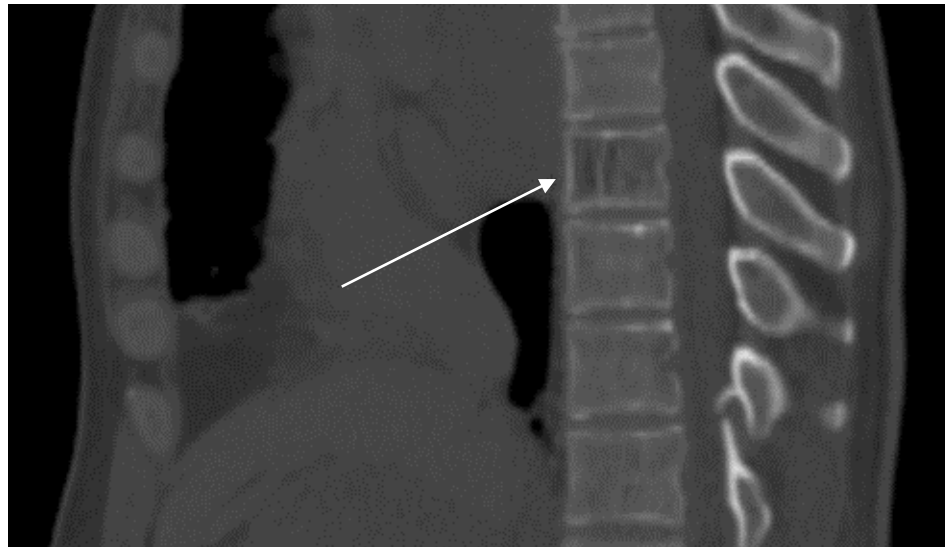

STIR

Aspect CT, osteonecroza aseptica de cap femural stang, stadiul IV, necesita protezare

Aspect CT de hemangiom vertebral

RX copil, tumora osoasa benigna – fibrom neosifiant

RM copil, fibrom neosifiant

T1

T2

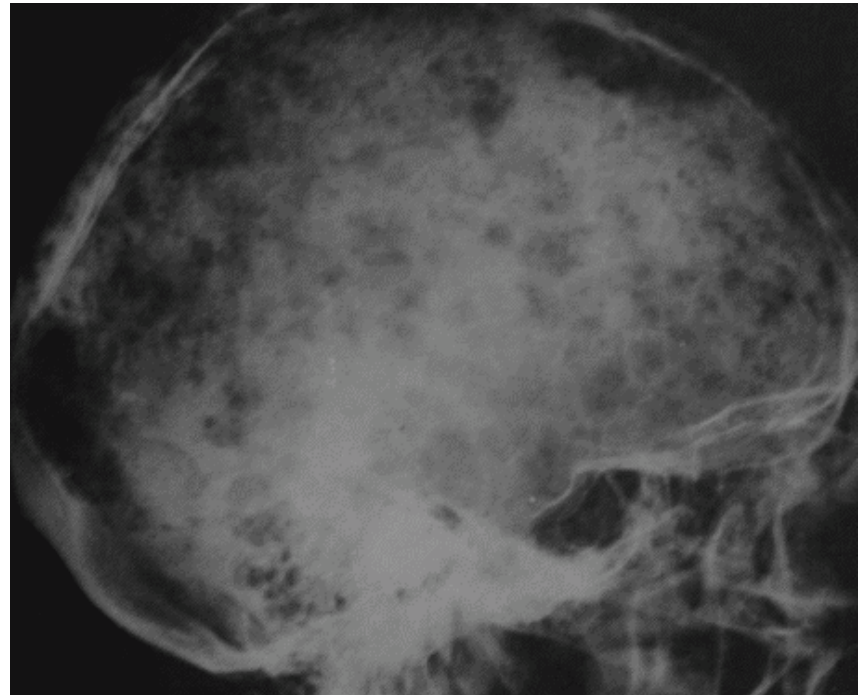

SPAIR

Aspect RX de osteosarcom osteogenic (1) + osteolitic (2+3)

Aspect RX de mielom multiplu

Aspect CT, fereastra osoasa, metastaze osoase osteocondensante (stanga) si osteolitice (dreapta)
