

LP NEURORADIOLOGIE, CAP SI GAT

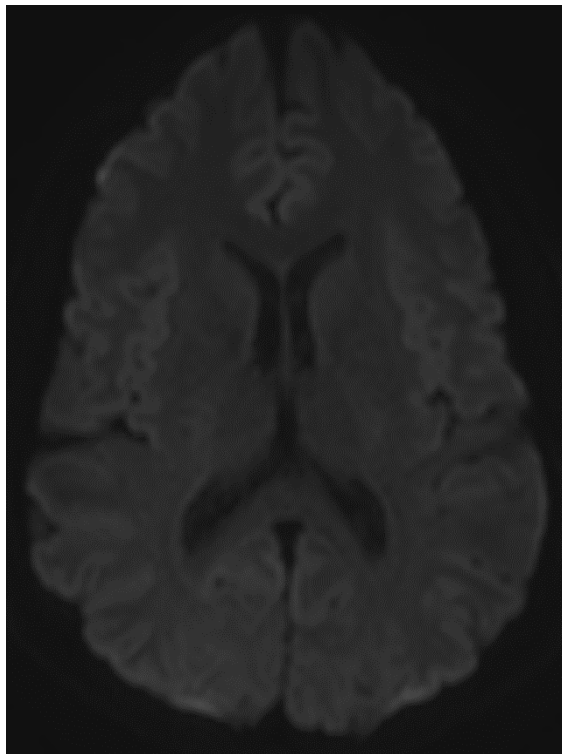

Aspect normal CT fereastră de parenchim cerebral (1) si fereastră osoasa (2)

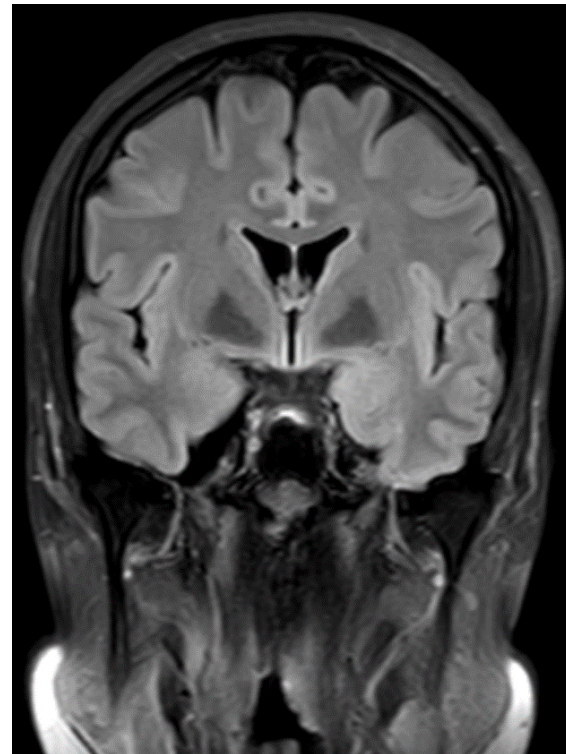

Aspect RM normal

T2

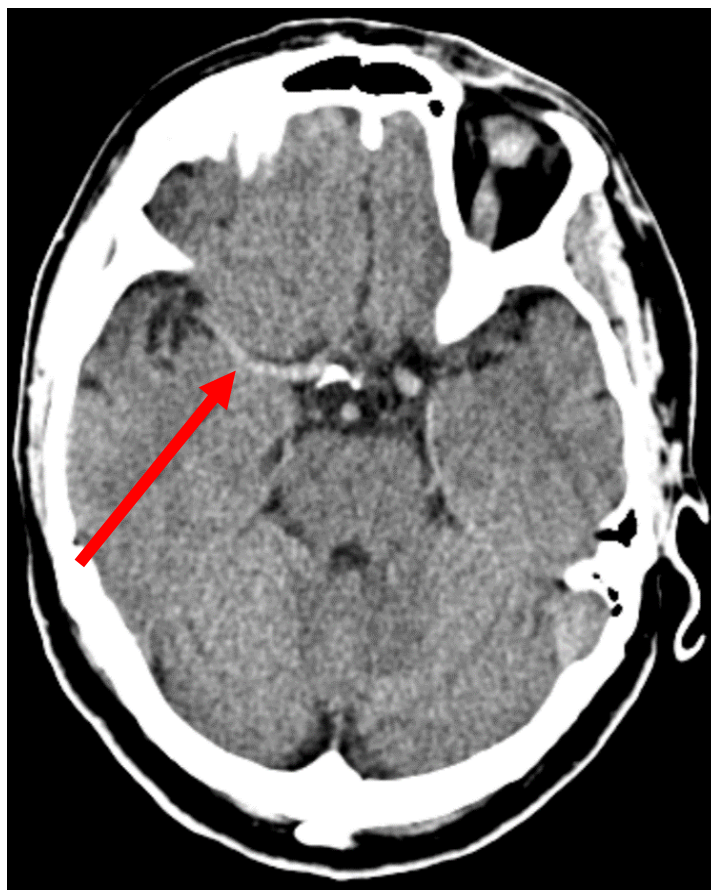

DWI

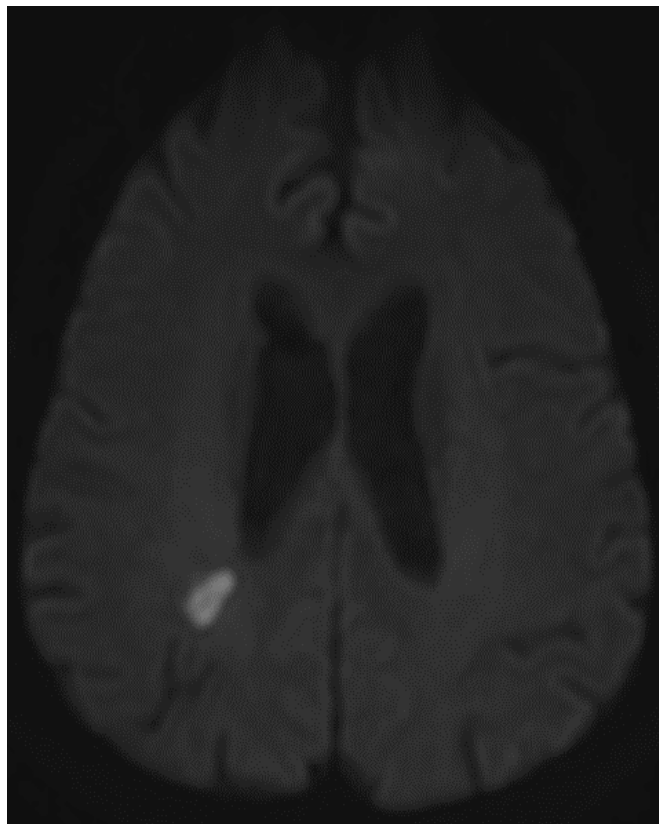

FLAIR

Aspect CT nativ – hiperdensitatea arterei cerebrale medii de partea dreapta (semn indirect de AVC ischemic supraacut)

AVC ischemic supraacut, aspect RM in secventa de difuzie (DWI)

DWI

AVC ischemic acut, aspect CT: zona hipodensa + stergerea giratiilor cerebrale

**AVC ischemic cronic (leziune sechelara), tractionarea cornului frontal al VL stang,
aspect CT, fereastra de parenchim cerebral**

AVC hemoragic acut cu inundarea ventriculului lateral drept si efect de masa asupra sistemului ventricular

Aspect CT fereastră osoasa, traiecte de fractura la nivelul osului zigomatic și peretelui postero-lateral al sinusului maxilar stâng, cu hemosinus maxilar stâng

Contuzie cerebrala hemoragica, cu modificari edematoase perilezionale, aspect CT

Hematom subdural acut fronto-parietal dreapta, aspect CT

Hematom subdural subacut fronto-parietal stanga, aspect CT, efect de masa asupra parenchimului cerebral + sistemului ventricular

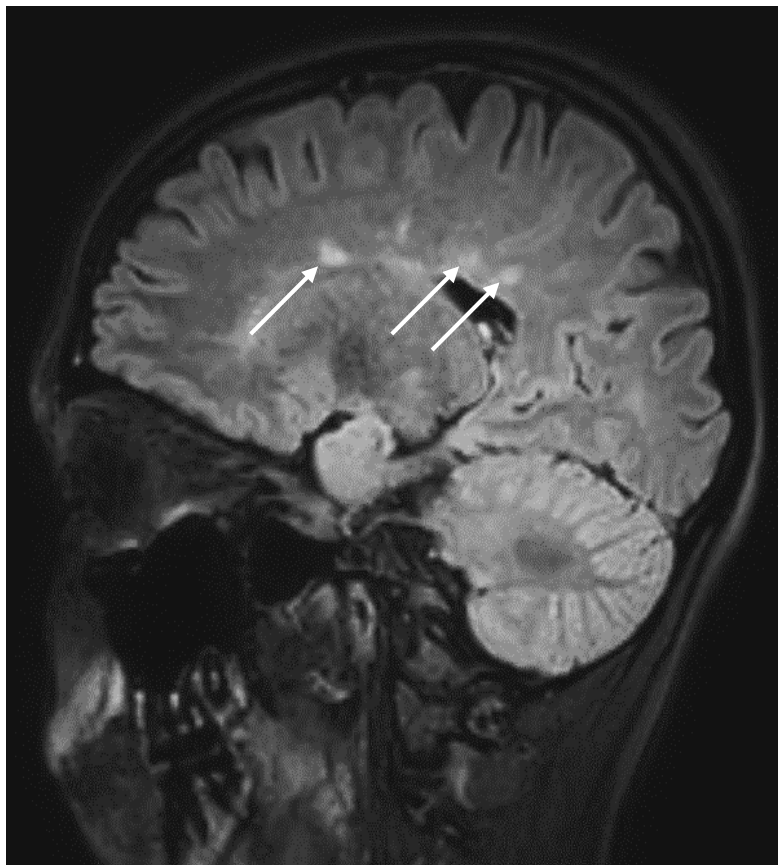

Hematom subdural cronic fronto-parietal stanga, aspect CT

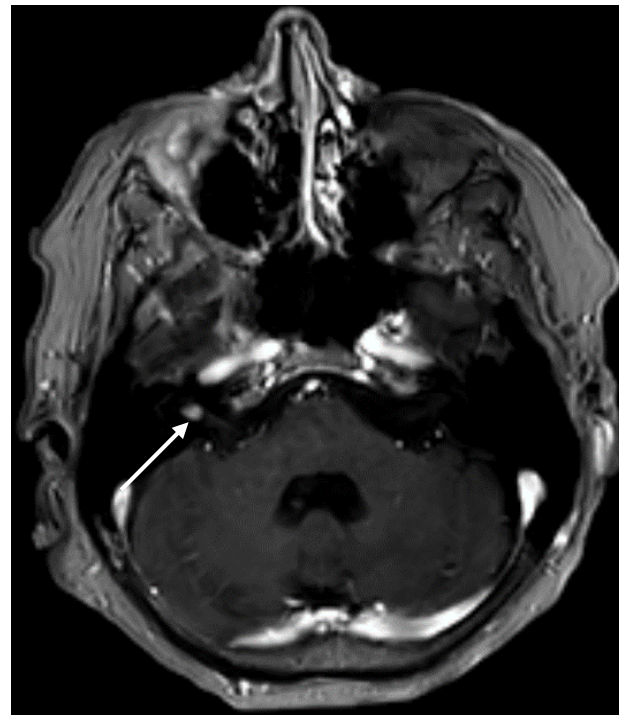

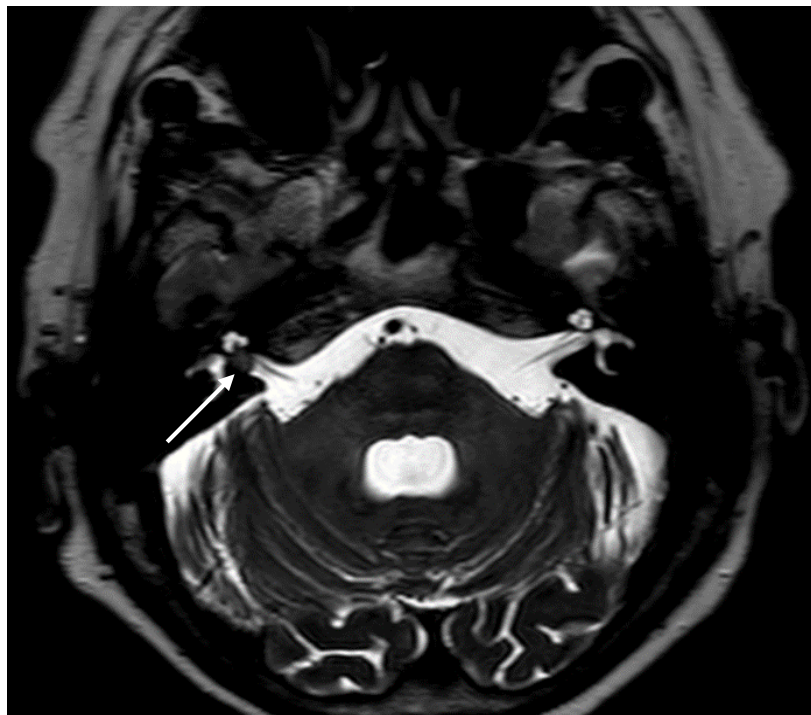

Hematoma epidural cronic, aspect CT

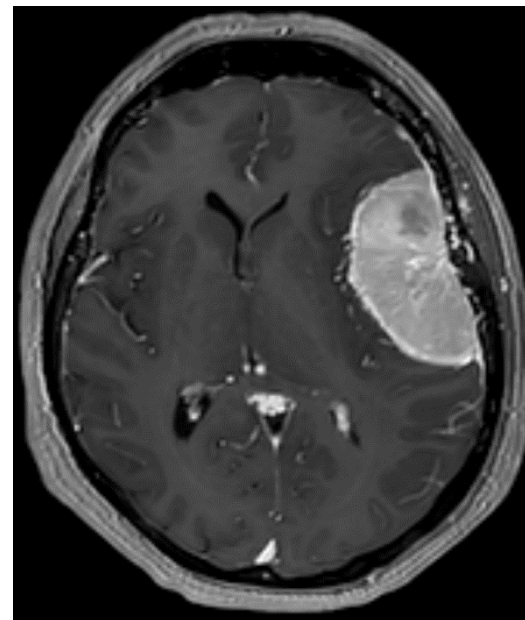

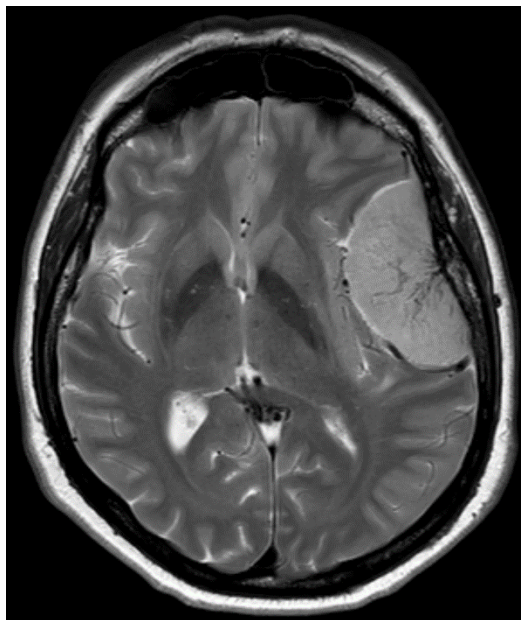

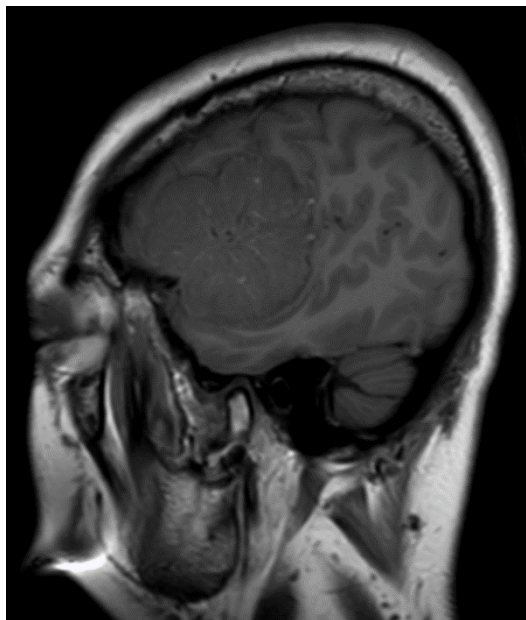

Aspect RM, secventa FLAIR, demielinizari – aspect de scleroza multipla

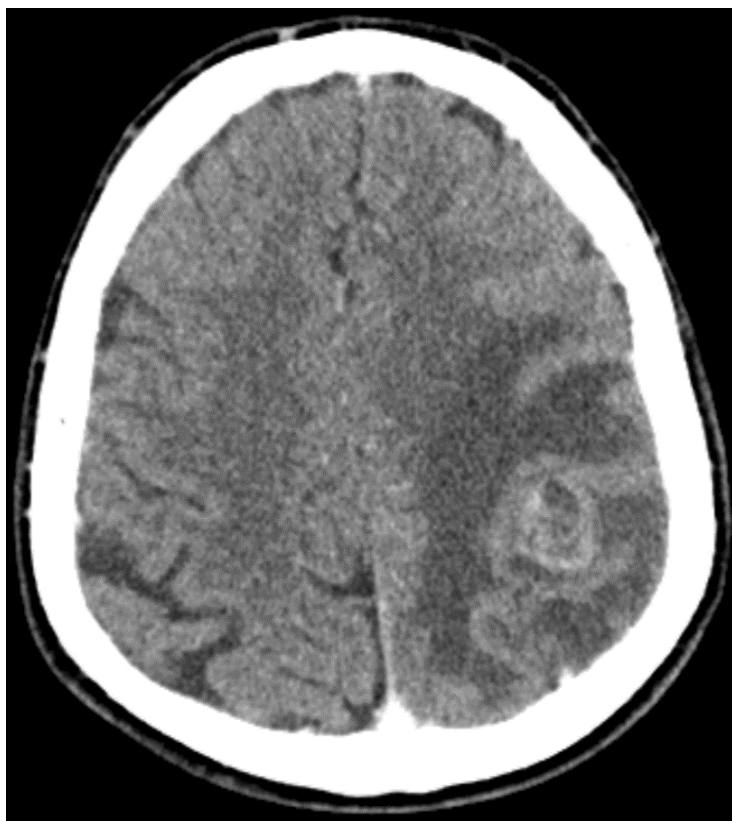

Neurinom de acustic drept, aspect RM secventa T2 si postcontrast intravenos

Meningiom, examen RM, secventele T1 nativ, T2 si T1 postcontrast

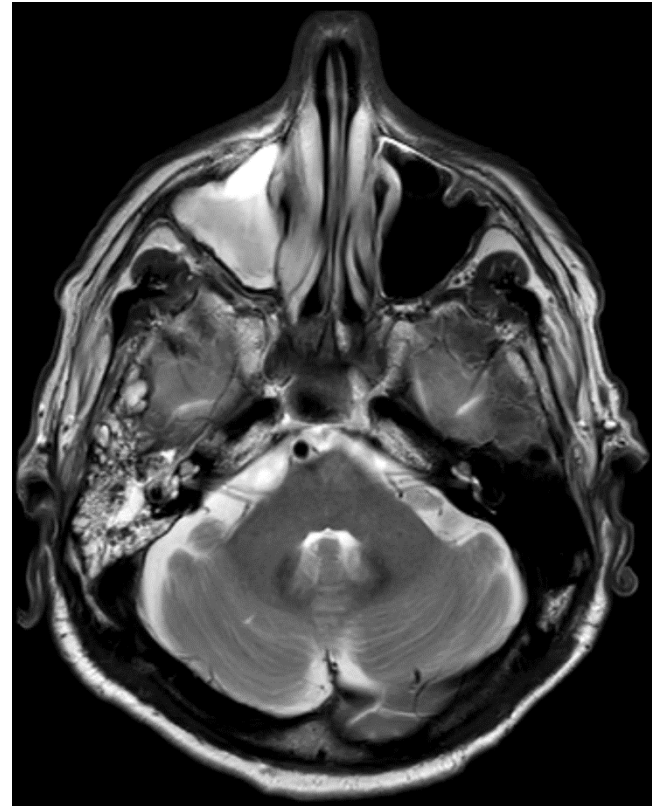

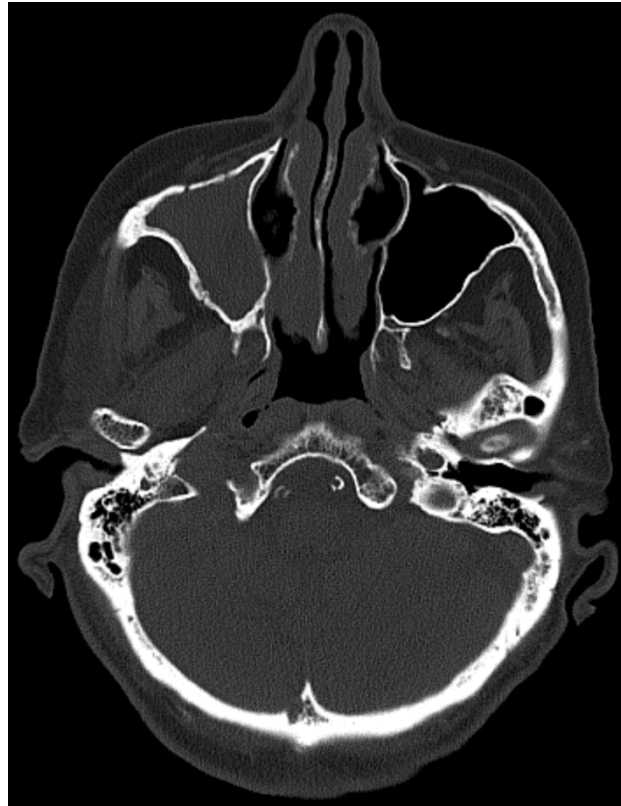

**Tumora cerebrala maligna cu edem perilezional digitiform, posibil glioblastom,
aspect CT**

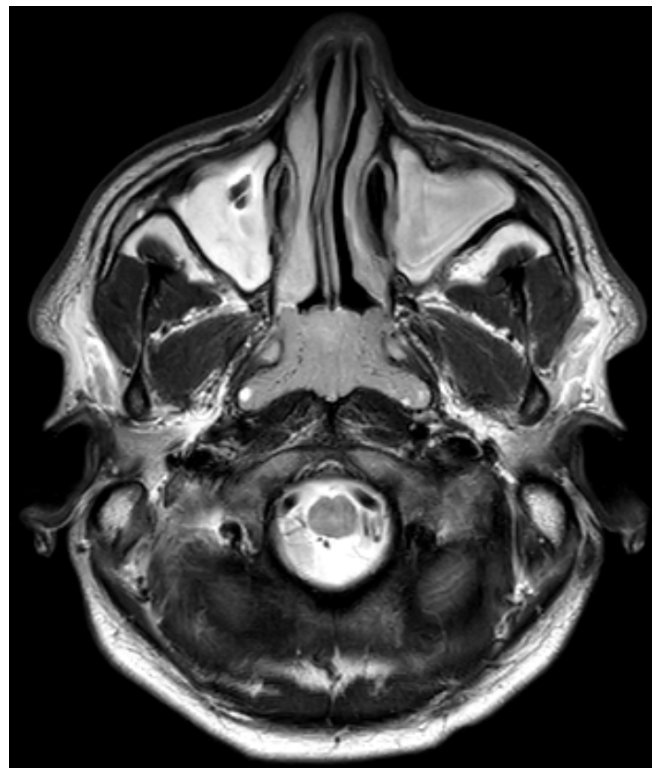

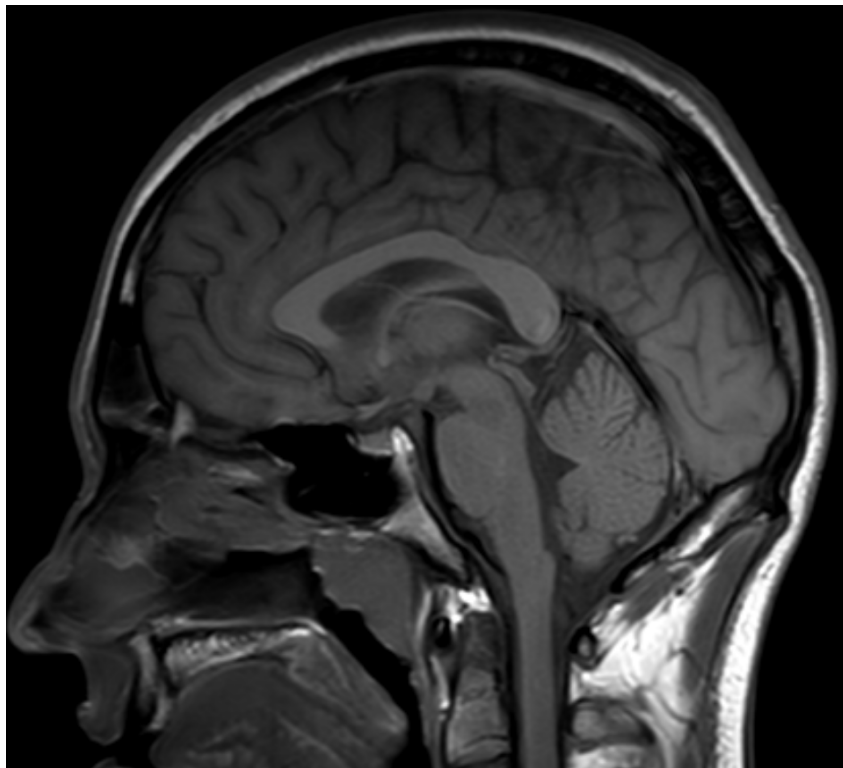

Aspect CT postcontrast intravenos de metastaze cerebrale multiple, cu edem perilezional digitiform

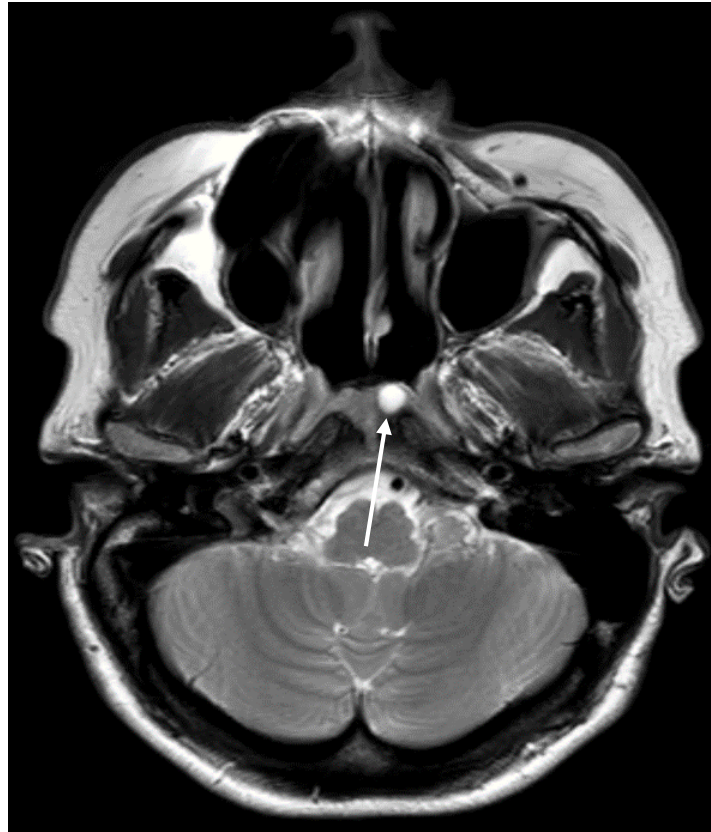

Aspect CT fereastra osoasa si RM secventa T2 de fluid sinus maxilar drept

Hipertrofie adenoidiana + fluid la nivelul sinusurilor maxilare bilaterale, aspect RM

Chist Thornwaldt, aspect RM, secventa T2

Aspect CT nativ + postcontrast de tumora nazofaringiana dreapta + fluid sinus maxilar drept

Aspect CT nativ + postcontrast de tumora orofaringiana dreapta

Aspect CT nativ + postcontrast intravenos de tumora laringiana dreapta
